REBATES TO HELP ALBERTANS TAP SOLAR RESOURCES

Submitted by Brent Wittmeier, Press Secretary, Environment and Parks | Government of Alberta

The Alberta government is creating a \$36-million rebate program for solar installation on residential and commercial buildings.

Homeowners, businesses and non-profit organizations will receive rebates for rooftop solar panels that meet the Residential and Commercial Solar Program requirements as early as this summer.

“There’s a lot of buzz in Alberta around small-scale solar. This program will make solar power affordable for more Albertans, leading to new panels on 10,000 Alberta rooftops by 2020. Along the way, we will create jobs and local expertise in an emerging industry.” - Shannon Phillips, Minister of Environment and Parks and Minister Responsible for the Climate Change Office

Solar uptake has doubled in Alberta since 2015, bolstered by initiatives like the Alberta Municipal Solar Program and the On-Farm Solar PV Program.

Over the next five years, the Residential and Commercial Solar Program will build on these existing programs. By 2019, the new program is expected to:

- support the creation of 900 jobs in Alberta’s solar sector
- cut solar installation costs by up to 30 per cent for residences, and up to 25 per cent for businesses and non-profits
- reduce greenhouse gas emissions in the province by about a half million tonnes, the equivalent of taking 100,000 passenger vehicles off the road

STARS LOTTERY PHONE SCAM

Submitted by Thorsby/Breton RCMP

The Thorsby/Breton RCMP has received numerous calls regarding the STARS lottery phone scam. Citizens are receiving phone calls from unknown STARS Lottery representatives advising them they have won a prize. Calls are calling from an Unknown Numbers or Numbers that start with 1-867 prefix. These Unknown Callers are asking people for a form of payment, such as Western Union, in order for their winning prize to be delivered that day. STARS

does not practice this form of communication and if you happen to win in their lottery, you would be notified in writing and how to claim your prize. STARS does not request money for their prizes. If you need more information about STARS, please visit their website www.stars.ca

It is strongly suggested that if you receive any calls from any Unfamiliar Numbers, Private Numbers, Unknown Numbers that you do not answer. If you have answered a scam type of call, please hang up, record any information and contact the

Canadian Anti-Fraud Centre at 1-888-495-8501. If you have been defrauded from your personal information or finances, please contact your local RCMP or Police Agency.

There are many types of phone scams out there ranging from the false lotteries, income tax scams, to people stating they know your computer has a virus. The best remedy for protecting yourself is to just not answer any unfamiliar calls. If it is someone you know, they will leave you a message or find another way to get a hold of you!

Rebates To Help Albertans Tap Solar Resources

Continued From Page 1

To ensure Albertans receive timely access, the government is posting a Request for Proposal to identify a third party to deliver the new program. Details will be defined in coming months, including qualifying systems, installation and eligibility requirements.

“The Energy Efficiency Advisory Panel heard that Albertans wanted this program. The Prairies have the best solar resources

in Canada, and there are a lot of potential investment opportunities. This is the first of several programs that will help create jobs and diversify Alberta’s energy economy into clean sources of energy.” - David Dodge, Chair, Energy Efficiency Alberta
“Albertans are ready to go solar, with growing demand, a world-class solar resource and an eager and capable solar industry. A sustained government push has been the missing piece for creating local jobs and clean

energy in our province.” - Rob Harlan, Executive Director, Solar Energy Society of Alberta
“We are proud to play a continued role in giving workers the tools they need to thrive in the province’s growing renewables sector. Together, we are building a stronger, more prosperous economy for all Albertans.” - Randall Benson, Solar Photovoltaic Power System Expert, Gridworks Solar Energy Training Centre
The Residential and Commer-

cial Solar Program is a reinvestment of the carbon levy.

Quick facts
• “Solar photovoltaic” is the scientific term for cells that convert sunlight into electricity.

• Non-profits interested in applying must be registered under the Federal Business Corporations Act and be incorporated and in good-standing under the Societies Act of Alberta, the Agriculture Societies Act, Companies Act – Part 9, or the Canada Not-for-Profit Corporations Act.

• On Dec. 21, 2016, the Government of Alberta amended the Micro-generation Regulation to provide more flexible rules for Albertans generating their own electricity. This increased the size limit of a micro-generation system from one megawatt to five megawatts and allows a solar array to serve adjacent sites (especially helpful for operations with more than one building).

JOKE OF THE WEEK

A pregnant Irish woman from Dublin gets in a car accident and falls into a deep coma. Asleep for nearly 6 months, when she wakes up she sees that she is no longer pregnant and frantically asks the doctor about her baby. The doctor replies, 'Ma'am you had twins! a boy and a girl. Your brother from Cork came in and named them.'

The woman thinks to herself, 'Oh No, not my brother... he's an idiot!' She asks the doctor, 'Well, what's the girl's name?' 'Denise.'

'Wow, that's not a bad name, I like it! What's the boy's name?' 'Denephew.'

SIGN PETITION E-910 – END THE CARBON TAX COVER-UP

Submitted by Jim Eglinski, MP – Yellowhead

Conservatives have been fighting for taxpayers ever since the government announced its carbon tax. We've been pressing the government for answers on how the Liberal carbon tax will impact low-income Canadians, seniors, youth, and the middle class. Yet, Justin Trudeau's Liberals have decided to impose a carbon tax on every Canadian, family, and business in Canada – and now they're covering up how much it will cost us.

At first, the Liberals said they didn't have the answers. More recently, heavily censored Finance Canada memos show the government does have answers, but they're covering them up. This has now become known as the "carbon tax cover-up."

Justin Trudeau has promised repeatedly to be transparent with Canadians, and it will be Canadians who have to pay the bill for his carbon tax.

In fact, research shows that low-income Canadians will have the hardest time paying a carbon tax, as this new tax makes the cost of necessities, like home heating, food, and fuel more expensive.

Families, businesses, and all Canadians deserve to know how much this new tax will cost them.

Conservatives are going to keep demanding answers on behalf of taxpayers. We're fighting Justin Trudeau's tax hikes, including the carbon tax, on a daily basis. I encourage everyone to sign petition e-910 at <https://petitions.parl.gc.ca> and demand an end to the carbon tax cover-up.

FARM SAFETY WEEK

Be SAFE – Plan Ahead Assess Risk

Risk concerns the expected value of results of a situation or event. The value of those results may be positive or negative. In the farming industry, the measure of risk can be rated as high, medium or low. Once the risk has been assessed, through your regular safety checks, employers can determine whether to take immediate action of a hazard or identify those that can be monitored and fixed at a later time. Regular assessment can help with budgeting time and resources for immediate or future repairs.

FARM SAFETY WEEK

As we recognize Farm Safety Week, please take a moment to review these simple tips designed to protect your health and safety on the job.

- Designate a safe play area for kids that is a safe distance from machinery.
- Plan an escape route when working around animals in tight areas.
- Wear protective equipment like masks and goggles to safeguard your lungs and eyes.
- Review and enforce basic safety rules for employees and family members, and set the example by following them yourself.

Teach small children the rudiments of safety, such as which areas are off-limits. As they grow older, explain why certain things are dangerous. When they start helping with the work, make sure they are properly trained, keeping their limited strength and experience in mind. The safe way to do things is not always obvious to a child, so always explain and enforce the safety aspects of the job.

LEDUC RCMP INVESTIGATE HOME INVASION

Submitted by Leduc RCMP

UPDATE: Driver Of Stolen Vehicle Arrested

The stolen Ford Ranger belonging to the victim of a home

invasion has been recovered by the RCMP with the assistance of the Edmonton Police Service, and the female driver arrested.

On March 1, 2017 late in the afternoon Edmonton Police Service located the stolen Ford Ranger. Following investigation, a traffic stop was conducted by EPS and the driver was arrested and taken into custody by the Leduc RCMP.

39 year old Kalisi Alona Harker has been charged with Possession of Property obtained by crime over \$5,000 as well a Provincial driving charge. A hearing was held and she was released on bail. Her first court appearance is scheduled for March 9, 2017 at the Provincial Court of Alberta in Leduc.

The Leduc RCMP General Investigation Section continue to investigate this incident. A composite sketch of one the suspects has been completed with the victim. Shown is a copy of the sketch, referencing Suspect #3.

Public assistance is still requested in identifying any of the suspects or providing information in relation to this invasion.

ORIGINAL RELEASE:

Following an interview with a male who arrived, in handcuffs, at the Leduc RCMP detachment the Leduc RCMP, with the as-

sistance of the Leduc General Investigation Section, are investigating a home invasion.

At approximately 2:00 a.m., on February 28, a home was broken into in Leduc County by four males and one female. Initially, they knocked on the door and announced themselves as the police, and then they kicked in a door and handcuffed the homeowner. The suspects were brandishing firearms and demanded that the victim open his safe.

The homeowner was robbed of five firearms as well some other items. The three rifles and two shotguns were properly stored in the homeowner's safe. The stolen items were loaded into the victim's vehicle which was subsequently stolen. All suspects then left the property.

The victim was able to release himself from one of the handcuffs and then enlisted a neighbour to assist him and bring him to the Leduc RCMP Detachment. He was not injured, and was the sole occupant of the residence.

Preliminary investigation leads the RCMP to believe that the suspects were aware of certain property within this home, and targeted the home. The RCMP do not feel that this was a random home invasion.

The suspects are described as follows:

- Female Suspect:
 - Caucasian
 - 5'7" tall / 130 – 170 lbs
 - Brunette hair, past shoulder length and wavy
 - Wearing a red coat
- Suspect #1
 - Caucasian male with brown eyes and darkish hair
 - Approximately 40 years old
 - 5'11" tall
 - Wearing a blue windbreaker with blue jeans and a tan mask covering his mouth and nose. A police emblem on a dark blue toque; gold borders on the emblem on the toque

MP EGLINSKI RELINQUISHES HIS SEAT FOR THE DAY IN HONOUR OF 'DAUGHTERS OF THE VOTE'

Submitted by Jim Eglinski, MP – Yellowhead

On March 8th, to mark the 100th anniversary of the first women in Canada being allowed to vote, and in recognition of Canada's 150th birthday, one young woman from each of our country's 338 ridings took a seat in Parliament as part of the 'Daughters of the Vote' initiative.

Mikayla Bosch, from Mayert-

horpe, represented our riding of Yellowhead. She was selected out of a total of 1,500 applications from across Canada. Currently studying International Relations at the University of British Columbia, Ms. Bosch has a strong passion for pursuing a position in leadership, as well as participating in humanitarian projects and global equality.

The initiative, organized in partnership with Equal Voice, also coincided with international

Women's Day. Equal Voice is a national, bilingual, multi-partisan organization dedicated to electing more women to all levels of political office in Canada. Despite the advances in political participation in Canada, women remain under-represented. Today, only 26 percent of elected members in the House of Commons are female.

I was pleased to meet with Ms. Bosch and be part of the effort to promote the participation of

young women in elected politics. We are privileged to live in Canada, a country in which men and women are regarded as equal. I believe that every person has the right to live the life they want to lead, and it is my hope that all of our children, regardless of their gender, will have the opportunities and tools they require to become tomorrow's leaders.

SHENANIGANS IN FINANCE COMMITTEE

Submitted by Jim Eglinski, MP – Yellowhead

On March 7th, in Ottawa at the House of Commons Standing Committee on Finance Conservative MP Ron Liepert, asked to undertake a study into Alberta's economy and current unemployment levels.

The committee has no agenda scheduled for any meetings in

March as the Government has not presented any agenda items to study. This was a great opportunity for Albertans to have their voices heard by Government. However, despite more than an hour of presentations by Conservative members of the committee as to the merits of such a study, the Liberals used their majority to defeat the motion.

I am disappointed in this deci-

sion. Conservative MP's believe they were elected to do work on behalf of those who elected them. It seems like Government Liberal MPs would rather the committee meet about nothing for the rest of the month or cancel all meetings than actually study what is the number one concern for many Albertans.

In my October household, 33% of Yellowhead's constitu-

ents identified unemployment as their number one priority and 48% identified the impact of the carbon tax on the economy as their top priority.

While Liberal MPs voted not to undertake a study, Conservative members succeeded to have 2.5 hours of debate take place on the job crisis in Alberta.

Rest assured, we will not let this issue die.

KIDS! HELP NAME 14 RCMP FOALS FOR CANADA 150!

Submitted by Alberta RCMP

Hey kids, the Royal Canadian Mounted Police (RCMP) has a contest just for you! This year, in celebration of Canada's 150th anniversary, the RCMP needs your help to name 14 foals born this spring at the RCMP breeding farm in Pakenham, Ontario. A winner will be selected from each of the 13 provinces and territories in Canada. In addition, for the first time, an entry submitted by a school class will be selected.

"Here's a chance for kids to be a part of history, by coming up with a name for one of the 14 foals," says Inspector Patrick

Egan, Officer in Charge of the Musical Ride. "This year with adding the school class entries, it gives a great opportunity for students to work together and come up with a name. Wouldn't it be cool if your class submitted the winning name and the foal becomes part of the world-famous Musical Ride some day? It's possible if you send in an entry to the 2017 RCMP "Name the Foal" contest."

To qualify, entries must meet the following criteria:

- names must begin with the letter "O";
- an individual entry must include a child's first name only, school, city, province or territory and email address;

- school class entries must include the teacher's name, school, city, province or territory and email address;

- entrants must be 14 years old or younger;

- only one entry per child will be eligible; and

- online entries must be received no later than April 30, 2017.

In the event of duplicate winning names, the first entry received will be accepted.

Winning names will be chosen by instructors of the RCMP Musical Ride Branch. Contest winners will be announced in May, along with the foals' names, on the RCMP website. Winners will receive a number of great RCMP

prizes such as a 2017 Musical Ride pennon, a framed picture of the foal, a t-shirt and pins.

Children are encouraged to submit their entries on the Internet at: <http://www.rcmp-grc.gc.ca/mr-ce/foal-poulain-eng.htm>.

If you prefer, send your entry by mail (including school entries), but ensure it is post-marked no later than April 26, 2017 to:

KEEP AN EYE FOR SAFETY

The type of safety eye protection you should wear depends on the hazards in your workplace. If you are working in an area that has particles, flying objects, or dust, you must at least wear safety glasses with side protection (side shields). If you are working with chemicals, you should wear goggles. If you are working near hazardous radiation (welding, lasers, or fibre optics) you must use special-purpose safety glasses, goggles, face shields, or helmets designed for that task.

Farm Safety Tips

When farming please follow these precautions in order to keep yourself, your family and your workers safe:

- Decrease your risk of being crushed by using lockout procedures before beginning any maintenance or repair work. Lockout means to physically neutralize all energies in a piece of equipment. Machines, devices or power transmission lines can be de-energized by applying blocks to all parts under tension or pressure, bleeding the hydraulic pressure from the lines or by releasing pressure from a coil or spring.
- Provide a safe, fenced play area for all children and supervise closely. The working area of the farm is not a playground any more than a construction site or other industrial area would be a play area. Review the safety rules on your farm with your family often. Fence off all manure, retaining ponds and dugouts, and lock buildings containing hazardous goods.

GUARD YOUR PROFITS

The bottom line for any business is profitability. An important part of maximizing profits is minimizing losses - and that includes non-productive time, costly machinery breakdowns as well as losses due to injury, illness, or death of the farmer, farm family, or farm workers.

Minimizing loss begins with making safety a priority, conducting a safety audit on your farm, keeping all machinery in good repair with guards and shields in place, having adequate accident insurance coverage, training workers in safe practices, leading by example every day.

FARM SAFETY TIPS

- Hire right - hire the right person and pay them fairly rather than hire an unqualified person for less money then pay for their liability and errors.
- Get a check-up - make sure every worker is checked up on at least every two hours
- Know the code - the Code of Practices for Farm Safety (PEI) has set the industry standard for agriculture
- Train for safety

RCMP INVESTIGATE THREATS AT FRANK MADDOCK HIGH SCHOOL

Submitted by Drayton Valley RCMP

Drayton Valley, Alberta - On March 9, 2017, Drayton Valley RCMP were called in relation to

potential threats made towards the Frank Maddock High School in Drayton Valley. RCMP have taken this complaint very seriously and after days of investigation, have determined the

threat not to be credible.

Drayton Valley RCMP have been working closely with the Frank Maddock High School administration throughout this investigation and appreciate

their support and assistance. As a result Frank Maddock High School will be resuming operations as usual.

BREAK AND ENTER BUCK LAKE

Submitted by Thorsby/Breton RCMP

Breton RCMP is seeking the public assistance concerning the

following:
Between February 16th and February 21st, 2017, a break and enter and theft occurred at a residence in Buck Lake. The

suspects gained entry to the residence and stole two firearms and a pendant that had a high sentimental value.

Shown is a picture of the pen-

dant.

Anyone with information regarding this incident are urged to call Breton RCMP at 780-696-3520 or 1-888-222-8477 (crime stoppers). Individuals can also go to www.tipsubmit.com or text tip to "smscrimetips.com". Individual caller information will be kept confidential, unless caller wishes to provide details.

FARM SAFETY WEEK

Preventing Crushes

- From rolling machinery to falling front-end loaders there are countless crush hazards on a farm. While farm operators and workers can't prevent every hazard on a farm, they should prevent every hazard they can by taking simple preventative measures while working.

- Failure to block-up equipment safely can result in a fatal crushing injury. A jack may slip, a hose or overhead support may break, or the equipment may roll. Always take the precaution of placing support blocks under the equipment prior to working with raised machinery for any reason.

BEWARE OF SCAMMERS

Submitted by Jim Eglinski, MP – Yellowhead

OTTAWA: Jim Eglinski, Member of Parliament for Yellowhead, is warning constituents to beware of emails and letters demanding payment to protect their intellectual property rights.

The Competition Bureau, an independent law enforcement agency, has issued a press release cautioning Canadians of scammers who are exploiting business owners' desires to protect their intellectual property

by sending official-looking "reminder notices". These notices demand hefty fees for urgent renewals to protect ownership of trademarks and patents.

Intellectual property forms the basis of business, including names, logos, slogans, domain names, original products and inventions. To protect intellectual property from competitors and copycats, business owners can safeguard it by registering trademarks, patents, and copyrights with the Canadian Intellectual Property Office (CIPO).

The fake notices claim to be from the CIPO and demand money to renew these intellectual property rights.

Below are some tips from the Competition Bureau to avoid falling for fake solicitations:

- Check who sent the reminder: Emails from CIPO will come from an address ending in "@canada.ca"; letters will come from 50 Victoria St., Gatineau, QC, K1A 0C9. If the notice comes from elsewhere, it's not from CIPO.
- Know what you owe:

The fees requested in the solicitations are usually much higher than CIPO's fees. Check CIPO's list of fees for a complete list of fees per service.

- Plan ahead: Intellectual property rights need to be renewed at very specific times. For example, trademarks are renewed every 15 years and patents maintenance fees must be paid every year. To know when you are expected to renew your IP rights, consult CIPO's list of fees.

- Read the fine print: It may confirm that the solicitation does not come from CIPO. If still unsure, contact CIPO to confirm that the solicitation is legitimate.

- Ask questions: If you have received an email or correspondence regarding the renewal of your trademark or patent, verify that it is legitimate by contacting the CIPO Client Service Centre at 1-866-997-1936, or by email at ic.contact-contact.ic@canada.ca.

"Businesses who believe they have been misled should contact the Competition Bureau's Information Centre at 1 800 348 5358 or CIPO's Client Services Centre at 1-866-997-1936, or visit the Bureau's website to file a complaint. Businesses can also contact the Canadian Anti-Fraud Centre at 1 888 495 8501, or visit its website," concluded MP Eglinski.

SUDOKU OF THE WEEK

Fun By The Numbers

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
