## ANOTHER BUSY SEASON AT THE ALBERTA BEACH AND DISTRICT MUSEUM AND ARCHIVES SOCIETY

Submitted by Leann Knysh, Alberta Beach and District Museum

The 2017 Season has started with much a buzz around the Heritage Village park in Alberta

Beach. Our Season Opening was July 1, 2017 and we busied ourselves getting ready with landscaping updates, building and artifact cleaning and maintenance prior to the opening. Many volunteers helped to get

ready for this summer season. We hired two great girls, made possible by the grants from Canada Works and STEP.

following precautions:

- Avoid all contact with blue-green algae (cyanobacteria) blooms. If contact occurs, wash with tap water as soon as possible.
- Do not swim or wade (or allow your pets to swim or wade) in any areas where blue-green algae (cyanobacteria) is visible.

# PRECAUTIONARY AIR QUALITY ADVISORY ISSUED FOR EDMONTON ZONE OF ALBERTA HEALTH SERVICES

Submitted by Alberta Health Services

Due to wildfires burning in British Columbia, air quality is expected to be variable across much of the Edmonton Zone of Alberta Health Services (AHS) over the coming days and potentially, weeks.

As such, AHS is issuing a precautionary air quality advisory for the entire Edmonton Zone of AHS.

Residents of the Edmonton Zone of AHS, and visitors to the Edmonton Zone of AHS, are advised to be aware of air conditions and take precautions against potential health concerns that can be associated with smoky air conditions.

Although minor smoke conditions do not typically cause health concerns in healthy individuals, if smoke conditions become more severe, even healthy individuals may experience temporary irritation of eyes and throat, and possibly short-

ness of breath.

If you can taste and/or smell smoke in the air:

- Monitor your symptoms.
- Minimize physical activity outdoors.
- Remain indoors with windows, doors and air circulation fans/vents closed.
- If you drive to another location, keep windows and vents closed. Run your car fan on re-circulate mode to avoid drawing in outdoor air.

Individuals with respiratory conditions (such as COPD and asthma), and individuals with existing cardiovascular conditions (such as angina, previous heart attack and congestive heart failure), may notice a worsening of symptoms in smoky air conditions. These individuals should monitor for worsening of symptoms and take the precautions routinely recommended by their physicians if a worsening of symptoms occurs.

Individuals experiencing symp-

oms can also call Health Link 24 hours a day, seven days a week, toll-free at 811, to speak to a registered nurse.

Air quality can and will vary with weather conditions and prevailing winds. Because air quality is expected to be variable, this advisory will remain in effect until further notice.

Information about the air quality in many areas of Alberta is updated hourly on the Alberta Environment Air Quality Website: <http://airquality.alberta.ca>. Air quality information is also available by phone, toll-free, at 1-877-247-7333.

Alberta Health Services is the provincial health authority responsible for planning and delivering health supports and services for more than 4 million adults and children living in Alberta. Its mission is to provide a patient-focused, quality health system that is accessible and sustainable for all Albertans.

**JOKE OF THE WEEK**

A young city couple are driving down a country lane on their way to visit some friends one day. They suddenly come to a muddy patch in the road and don't stop in time, so the car becomes bogged down and stuck. After a few minutes of trying to get the car out by themselves, they see a young farmer coming down the lane, driving some oxen in front of him. The young farmer stops when he sees the couple in trouble and offers to use the oxen to pull the car out of the mud for \$50. The husband accepts and a few minutes later the car is free. Afterward, the farmer says to the husband, "You know, you're the tenth car I've helped out of the mud today." The husband looks around at the fields and asks the farmer, "When do you have time to plow your land? At night?" The young farmer says, "Oh no. Night is when I put the water in the hole."

# Another Busy Season At The Alberta Beach And District Museum And Archives Society

Continued From Page 1

Lots of our buildings were updated again this year with paint and maintenance, performed by the expertise of Dave's Painting, who is also an avid supporter of our Facility by donating his time and materials to keep our Historical Buildings shining

We celebrated Canada 150 on the opening day with a beautiful

Canada Day Flag Cake and Tim Hortons Coffee and handed out flags to all our visitors. We hosted approximately 200 people through the gates that day and in spite of the black clouds that rolled in around 3:30 pm, the day was fantastic.. We had the front gate decorated in Red and White Arched Balloon entrance and that was donated by Delores from The Balloon Store out of

Edmonton. It was a hit as many a visitors had their pictures taken with the Arch as the back drop. Thanks to The Balloon Store's dedication to our Museum in decorating every year for our Season Opening.

We have had another 165 visitors this past couple weeks so it is turning out to be a great year for us. We expect a huge turnout on the Poly Days Weekend when we will host the Grand Opening of the recently acquired Ayerbank House, donated by the Orr family and moved to our facility this year. We will again have

Cake and Tim Hortons coffee on Sunday, August 6th at 1:00 – 6 pm,

If you have not been to our historical park, this summer would be a great time to stop in and tour the buildings and artifacts. We even have a fun interactive game for the kids in the Scavenger Hunt . Open Wednesday to Monday (closed Tuesdays) 1-6 pm until September.

Check out our Website at [www.albertabeachmuseum.net](http://www.albertabeachmuseum.net) for a sneak peak or share your experience on our Alberta Beach Museum Facebook page.

# Blue-Green Algae Bloom Advisory Issued For Lessard Lake & Lac La Nonne

## Continued From Page 1

As always, visitors and residents are reminded to never drink or cook with untreated water directly from any recreational body of water, including Lessard Lake, at any time. Boiling of this water will not remove the toxins produced by blue-green algae (cyanobacteria). An alternate source of drinking water should also be provided for pets and livestock, while this advisory is active.

Blue-green algae (cyanobacteria) is naturally occurring, and often become visible when weather conditions are calm. Appearing like scum, grass clippings, fuzz or globs on the surface of water, blue-green algae (cyanobacteria) can be blue-green, greenish-brown, brown, and/or pinkish-red, and often smell musty or grassy.

People who come in contact with visible blue-green algae (cyanobacteria), or who ingest water containing blue-green algae (cyanobacteria), may experience skin irritation, rash, sore throat, sore red eyes, swollen lips, fever, nausea and vomiting and/or diarrhea. Symptoms usually appear within one to three hours and resolve in one to two days. Symptoms in children are often more pronounced; however, all humans are at risk of these symptoms.

Weather and wind conditions can cause algae blooms to move from one location in the lake to another. As such, this advisory will remain in effect for Lessard Lake, until further notice.

Please note that areas of Lessard Lake in which the blue-green algae (cyanobacteria) bloom is NOT visible can still be used for recreational purposes, even while this Blue-green

Algae (Cyanobacteria) Advisory is in place.

If you suspect a problem related to blue-green algae (cyanobacteria), or if you require further information on health concerns and blue-green algae (cyanobacteria), please call Health Link at 811. Additional information is also available online, at [www.ahs.ca/bga](http://www.ahs.ca/bga).

# GOLFER'S GUIDE

## HELP KIDS LEARN THE GAME OF GOLF

Adults who play golf know just how fun and frustrating the game can be. Whether you're a veteran golfer or someone just learning the links, golf can be challenging.

But as exacting as the game can be, it also can be just as rewarding, even for kids. Children who embrace the game of golf will learn a host of lessons they can apply in all facets of life. A humbling game even for professional golfers, golf can teach kids lessons in humility and the value of persistence even when things aren't going your way.

Golf is also a great way for parents to get kids off the couch and outdoors for some fun in the

sun. Instead of spending summer afternoons in front of the television, kids who play golf are out patrolling pristine golf courses while getting some cardiovascular exercise along the way. Golf can also strengthen a child's hand-eye coordination, which can help them in other activities, including many different sports.

Though many people do not begin playing golf until they've reached adulthood, it's never too early for boys and girls to start learning the game of golf. Parents of preschoolers can start their kids off with a toddler play set. Though it's just a toy, a play set can help lay a solid foundation for future

golfers. Kids who have watched Mom and Dad play golf or practice their swing can develop their own swings on their play set.

As kids approach school age, don't overlook the nearby putt-putt or miniature golf range as a valuable teaching tool. Miniature golf clubs are small enough for many children to use comfortably, and kids can use miniature golf courses as a place to put any lessons or advice on putting to good use. What's more, a miniature golf course is more than just golf, with creative courses and other fun activities, so kids won't feel overwhelmed with golf.

When kids move on from pre-

school to elementary school, some might want to tag along with Mom or Dad to the driving range. You should try to avoid overwhelming kids with too much instruction or information. Instead, keep things as simple as possible, teaching them the basic swing and encouraging them no matter how quickly they adapt.

As kids enter middle school and approach high school, those who are enjoying the game of golf can take advantage of the driving range if they haven't already begun to. A driving range typically has markers that indicate the distance of a regular hole, regardless of which tee you will play from on an actual golf course. Kids can aim for holes at shorter distances to learn how far their drives are going. You can then adjust the lessons you teach your children based on how far youngsters can drive the ball.

As a child gets closer to high school, you might want to buy the child his or her own set of clubs. Look for inexpensive clubs (oftentimes, thrift stores or other secondhand retailers have clubs for sale) because growing children will eventually grow out of their first set of clubs. When your child finds a set of clubs that suits him or her, teach the proper way to swing and consider signing up your son or daughter for lessons. Those first few lessons can prove invaluable, turning a pastime into a passion kids will carry with them throughout their lives.

# GOLFER'S GUIDE

## FIVE TOP GOLF TIPS TO HELP BOOST YOUR GAME

(NC) When it comes to golf, it's the little things that can have the biggest impact on your game. Whether it's your first attempt, or 10th season, golf expert Bob Weeks has got you covered at the links this summer with these five tips:

**Choose the right clubs:** Regardless of your experience or skill level, choosing the right equipment can be the difference between duffing it and striking the ball straight down the fairway. It's important to work with a professional to get the clubs best-suited to your game and then, to have them custom fit. You should be fit for the length, loft, lie angle, shaft flex and even the grip size. If your clubs aren't custom fit, it will be like

walking around in shoes that are the wrong size.

**Get on the ball:** Choose the right kind of golf ball for your game. While golf balls all look the same, it's what's inside that determines if it's right for you. Golf balls fall into two categories: distance or control. Distance balls are generally two-piece balls with a large core and a cover. They are harder and better suited for higher handicappers or beginners. Control balls, usually three- or four-piece balls, are softer and spin more meaning they will land on the green and stop. More skillful players should use these.

**Consider the elements:** Weather is always a factor in golf and dealing with it must always be

considered. For instance, in cold temperatures, the ball will travel shorter distances, so take more club. The opposite is true for warmer temperatures. If you're playing into the wind, swing easy as that will keep the ball from spinning too much and rising up into the breezes. And downwind, make sure to judge the intensity of the breezes so you can choose the proper club. Your ball will roll further than normal on a downwind shot so take that into account.

**Putting and chipping is priority:** Lots of players like to boom their drives and will spend a lot of time on the range hitting their drivers. But if you want to improve your scores, you should spend more time working on

your putting and chipping. Since most average players miss a lot of greens, the best way to save strokes is by chipping it close and making more putts. Focus more on your short game than your drive and you will improve.

**Play the 19th hole:** Win or lose, there's no better way to celebrate than hitting the 19th hole. Less is often more in golf and the same applies when considering what to eat and drink after a round. Molson Canadian 67 for example is specially brewed with 67 calories and an ABV of 3% per 341ml, offering a light, refreshing alternative for active players.

# GOOD TO BE HOME

**Submitted by Jim Eglinski, MP – Yellowhead**

I am pleased to be home with my constituents where I will be spending my time in communities across this beautiful riding of Yellowhead. Returning home allows me the opportunity to meet face-to-face with you, attend events, catch up on phone calls, and answer correspondence. Meetings, events, phone calls and responding to your letters will help me represent you better when Parliament resumes in September.

The spring parliamentary session concluded on June 21, 2017. Below is a summary of hot topics:

1. Interesting how the federal government can quickly produce \$10.5 million to pay Omar Khadr, who fought against Canada, but can't seem to provide enough funding in the Veterans Affairs budget to make sure our elderly veterans are properly cared for. Mr. Trudeau was wrong to compensate Omar Khadr, and wrong to do it in a secret deal.

2. Métis commissioner, Marilyn Poitras stepped down from the five-member commission, citing issues with the "current structure" of the inquiry into Murdered and Missing Indigenous Women and Girls.

3. Prime Minister Trudeau promised to borrow only \$10 billion, and balance the budget by 2019. The Finance Department's report shows a different story. It says the deficit won't be eliminated for at least 35 years! His borrowing and spending is out of control. So much for a 'modest deficit'.

4. Thanks to this Liberal government, we won't have a softwood lumber deal anytime soon. This is one of the main industries in our riding of which I have repeatedly brought to the Government's attention.

5. The Liberal government must immediately act on the Mountain Pine Beetle infestation before it is too late. This is another issue I have repeatedly brought to the Government's attention.

6. The Trudeau Liberals have scrapped important tax credits for kids' sports and arts programs; slashed the Tax-Free Savings Account; put tax hikes on public

transit, beer and wine; and applied GST to ridesharing services like Uber.

7. Their proposed national carbon tax will increase the price of gasoline by 11 cents by 2022, costing the average family \$1,250 to \$2,500 per year.

8. Their payroll tax hikes will make it harder for companies to hire young people. So much for our farmers and our youth! This must be stopped!

9. The taxpayer-funded Infrastructure Bank has been widely criticized by industry professionals for putting tax dollars on the

line to cover risky investments made by private companies. This bank will only help a lot of well-connected insiders and lobbyists. What about building the roads and bridges communities need?

10. What about the status of the Kinder Morgan Pipeline? After all, Canadians can have jobs and a clean environment.

Trudeau's "Sunny Ways" is leading us to "Gloomy Days" as his government becomes even less transparent, less accountable, and less cooperative.

As we look ahead to the fall ses-

sion of Parliament, our new Conservative leader, Andrew Scheer, and our team will continue to stand up for everyday Canadians. We will hold this Liberal government to account for raising taxes; introducing policies that have stalled job growth; the Prime Minister's unethical behavior; the release of dangerous criminals because of judicial delay; out-of-control spending; new tax hikes on the middle class; lavish vacations; and a litany of partisan appointments, etc. All are examples of poor leadership.

# MURDER CHARGE LAID IN DEATH OF RONALD WORSFOLD

**Submitted by St. Albert RCMP and RCMP Major Crimes Unit**

St. Albert, Alberta - An autopsy has been completed and murder charges laid in relation to the death of 75-year-old St. Albert resident Ronald Worsfold.

On July 8, the family of Ronald Worsfold reported that he was missing from his St. Albert residence

and had not been in contact with his family since the evening of July 7th. A missing persons investigation was launched and the following day, July 9, investigators located a body which was believed to be Mr. Worsfold, in a rural area of Parkland County near Stony Plain.

An autopsy was completed on July 11, 2017 by the Chief Medical Examiners office in Edmonton. The autopsy confirmed the body found

near Stony Plain was Ronald Worsfold and that the manner of his death was homicide.

The RCMP Major Crimes Unit has charged 28-year-old Beryl Musila from St. Albert with first degree murder and indignity to human remains in relation to the death of Mr. Worsfold. She is scheduled to appear in Sherwood Park Provincial Court on July 12, 2017.

Investigators can now confirm that

the theft of Mr. Worsfold's Toyota Corolla five days before his disappearance was not connected with his death or disappearance.

The RCMP thanks the public for their efforts and support in bringing this investigation to a quick conclusion and offers sincere condolences to Ronald's family and friends.

No further information will be released as this investigation is now before the courts.

## SUDOKU OF THE WEEK

### Fun By The Numbers

**Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

# DEAD RABBIT AT SCHOOL

Submitted by St Albert RCMP

File: 2017-850807

St. Albert, AB - On Tuesday, July 4, 2017, at approximately 10:00 a.m., St. Albert RCMP were advised that a rabbit had been killed behind Albert Lacombe School located at 50 Gainsborough Avenue in St. Albert. RCMP attended the school where jackrabbit blood had been smeared on the school. A police investigation is continuing and a request has been made to have the school cleaned.

St. Albert RCMP have obtained video surveillance from the school and are in the process of reviewing and analyzing the video to determine possible suspects. It is suggested that the person or persons responsible for this rabbit's death and the mischief to the school turn themselves in to the St. Albert RCMP immediately to deal with this matter.

St. Albert RCMP are asking anyone who witnessed this event, to call 780 458 7700 or attend the Detachment to give a statement. "Harming wildlife and damaging a school are disturbing and serious matters to the RCMP and the community of St. Albert." says Cpl. Laurel Kading, the Non-Commissioned Officer in Charge of the St. Albert RCMP Community Policing/ Victim Services Unit. "Officers are working hard to locate the offenders and stop this disrespectful behaviour."

KEEPING YOU AND YOUR COMMUNITY INFORMED!
