## VANDALS STRIKE AGAIN!

**Submitted by Shayna Powell/ Museum Manager of Tipple Park Museum**

What an incredibly boring way to headline an article in this day and age. At the risk of sounding like an old fogey I must ask the question, "What is happening to the youth of our town?" Once again, the Tipple Park Museum has become the victim of vandalism, not once but twice in the last month! We have had our locks busted, buildings trespassed upon, artifacts have been moved around and broken, some

small tools were stolen, and one day a general path of destruction could be followed throughout our out buildings, conveniently made by three, six to ten-year-

old children. All children can get into mischief from time to time.

## YELLOWHEAD COUNTY OFFERING COMPASS FOR THE CAREGIVER SESSIONS

**Submitted by Stefan Felsing, Communications Coordinator, Yellowhead County**

(August 3, 2017) – Yellowhead County FCSS will be hosting COMPASS for the Caregiver, a course specifically created for caregivers of parents, spouses, an elderly friend, family member, or children.

According to Caregivers Alberta: "Caregiving can be a stressful, isolating, and overwhelming experience. It can have a negative impact on the caregiver's physical and mental health. COMPASS helps

caregivers balance their own well-being with the challenges of caregiving."

COMPASS is a 9-module program that deals with "guilt and grief, managing stress, improving communication, navigating the system and planning for the journey ahead" and is facilitated by someone who understands how stressful caregiving can be. The course facilitator will be going through a Compass for Caregiver book provided by the Alberta Caregivers Association, and it will help caregivers in their caregiver journey with resilience and give strategies to

cope with the stress of caregiving.

During the sessions, the facilitator will be going through a Compass for Caregiver book that is provided by the Alberta Caregivers Association. This multi-stage course will help caregivers with learning resilience and give them strategies to cope with the stress of caregiving during their journey. A complete list of the module topics is available at [www.bit.ly/ABCompassTopics](http://www.bit.ly/ABCompassTopics).

## Yellowhead County Offering Compass for the Caregiver Sessions

Continued From Page 1

Caregivers will have a chance to come together to learn something new and through their experiences help each other as they go through the Compass for the Caregiver sessions together. Everyone will sign a Confidentiality Agreement so that whatever is shared stays in those sessions.

As a compass is used by explorers to navigate their way through the unknown wilderness, this COMPASS program has been designed to assist caregivers in navigating their way through the unknown situations that are ahead of them in their caregiving journey. COMPASS provides information and assistance through the nine modules

of the program.

The Compass for Caregiver Sessions start on Thursday, September 7 from 1:00 to 3:00 pm and will run for eight weeks to October 26 with the final get together occurring on November 16 at the Peers Multiplex.

If you would like to attend, please call the Yellowhead County Wildwood Office at 780-325-3782 or 1-800-814-3935 to register.

The registration deadline is August 31, 2017. There is a cost of \$20.00 for the Compass for Caregiver book. There will be light refreshments.

**JOKE OF THE WEEK**

I was having trouble with my computer. So I called David, the 11 year old next door whose bedroom looks like Mission Control, and asked him to come over. David clicked a couple of buttons and solved the problem. As he was walking away, I called after him, "So, what was wrong?" He replied, "It was an ID ten T error." I didn't want to appear stupid, but nonetheless inquired, "An ID Ten T error? What's that? In case I need to fix it again." David grinned, "Haven't you ever heard of an ID ten T error before?" "No", I replied. "Write it down," he said, "and I think you'll figure it out." So I wrote down: I D 1 0 T I used to like that little boy.

# NEW DAIRY INVESTMENT PROGRAMS

Submitted by **Jim Eglinski, MP – Yellowhead**

OTTAWA: Jim Eglinski, Member of Parliament for Yellowhead, is pleased to inform local farmers of two new investment programs aimed at dairy producers and processors.

The programs will help the sector increase productivity and competitiveness and prepare for the implementation of the Canada-European Union Comprehensive Economic and Trade Agreement (CETA), which was negotiated by the previous Conservative Government and will establish greater access for European cheeses into Canada.

The first is a five-year, \$250 million Dairy Farm Investment Program to help Canadian cow's milk producers improve productivity through upgrades to their equipment. All producers of cow's milk – irrespective of the size of their oper-

ations – are welcome to apply. This program will cover up to 50% of approved project costs, up to a maximum of \$250,000. Applications will be accepted as of August 22.

The second is a four-year, \$100 million Dairy Processing Investment Fund that will provide funding to help the Canadian dairy processing sector make investments to improve productivity and prepare for increased competition in the domestic market as a result of CETA. Not-for-profit organizations involved in the dairy sector can also apply. Applications are now being accepted.

"Local farmers are key contributors to and important members of our communities. I encourage all eligible producers to take advantage of this investment opportunity," concluded MP Eglinski.

For more information, visit: <http://www.agr.gc.ca/eng/programs-for-the-dairy-sector/?id=1494345318736> or call 1-877-246-4682.

(August 3, 2017,)—Caregiving can be stressful and difficult and caregivers need a break from caregiving. Every participant signs a confidentiality agreement and whatever is talked about in these sessions stays confidential. Caregivers can have this opportunity in the Caregiver Support Group on the third Monday of

# Vandals Strike Again!

Continued From Page 1

Growing up I was blessed with knowledgeable and alert parents that kept a close eye on my whereabouts and what I did when I was out with friends. Despite this, I still managed to get in trouble and occasionally annoy the neighbours.

I had the misfortune or the luck (depending on the day) to have a brother that was four years older than me and he ran with a pack of fascinating friends. They always seemed to be doing things that were more interesting, daring and fun, then my group of friends. One afternoon I noticed them

out on the boulevard laughing hysterically hiding behind our old Malibu.

"Whattcha doing?" I asked.

"Playing Knock-a-door- ginger."

"Can I play?"

"Nope. You're too stupid." Answered my brother.

The challenge was then on. I gathered all I could about the "rules" of the game from his wayward friends. It sounded simple enough, all you had to do was knock on a neighbour's door, run like the very devil and when they answered the door, you had to holler, "Knock-a-door- ginger!"

I was then elected to be the appointed door knocker and they pointed me towards the door I was to knock

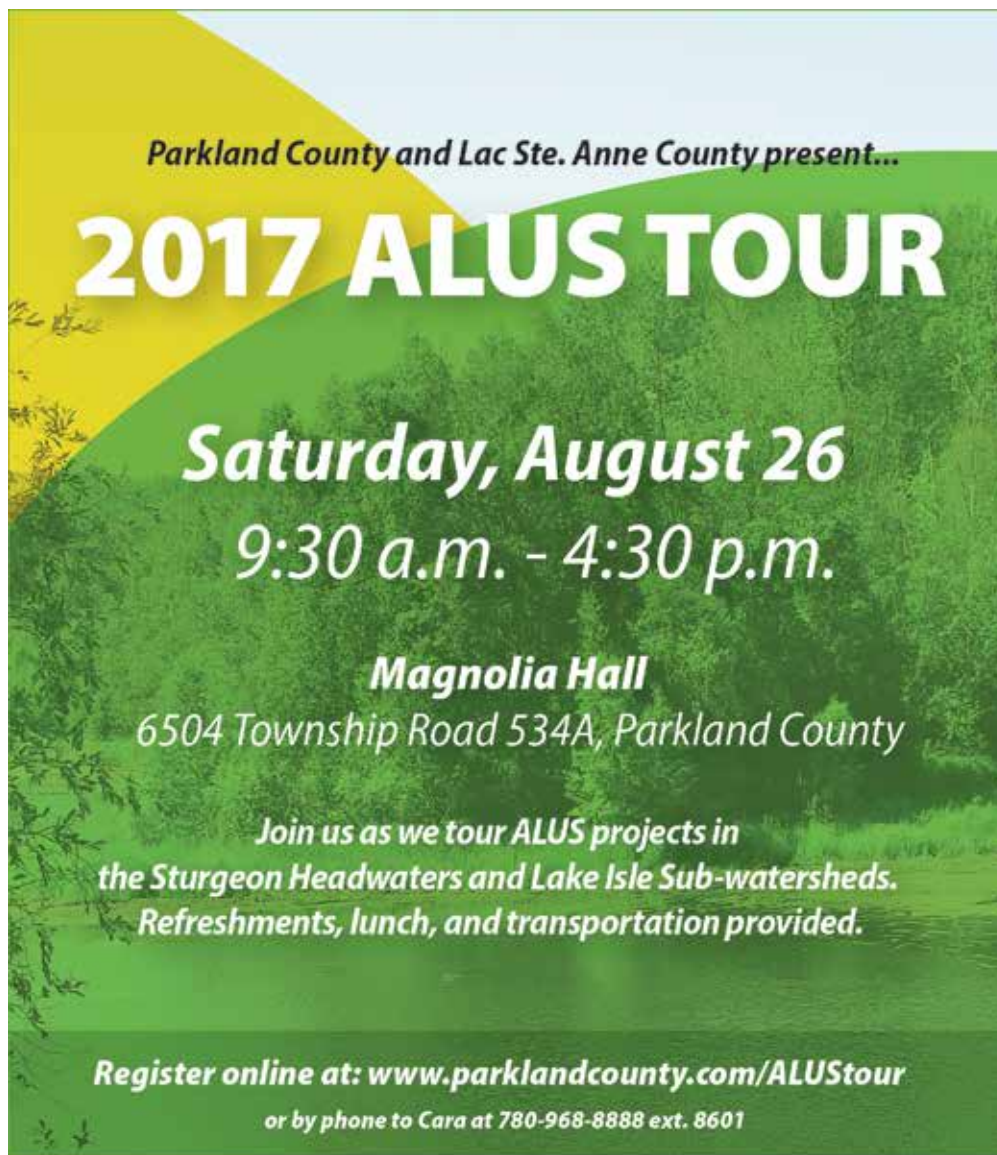

on, while the rest of the gang hid behind the Malibu. This sounded like a lot of fun and I was shocked that they would let me participate, but I was an enthusiastic "in". All would have been just fine, if they had not neglected to tell me that they had already played this glorious trick on the same door several times in the past hour. As soon as my pint sized five- year- old knuckles struck the door, the screen door flung open pinning me between the house and the door. Our truck-driving, beer swilling, swearing giant of a neighbour had answered the door. My face and trembling body were squished against the stucco of the house, I was

quite certain that I was about to meet my maker. 'This is what it is like to die and I haven't even had my sixth birthday,' I thought. Just then I heard my brother holler, "Hey ya big bozo!" from the safety of his barricade.

Bozo shook his fist at his adversaries and a deluge of colourful language spewed forth from his gargantuan mouth, followed by a slam of the door. My brother and his friends encouragingly shouted, "RUN!" My noodle like legs immediately started moving as I fled across the lawn and then across the never-ending expanse of road, until I finally dove behind the safety of the Malibu. I was met with approving accolades, giggles and several claps on my back. I wanted to kill my brother. I had however survived and though I had not quite reached 'revered' status in the gang, I had scratched and clawed my way to possibly 'tolerated' status. At the conclusion of this debacle every adult reading this is now thinking, "Where were her so called diligent parents?"

Diligent parents can still be caught unawares and that is why it is important that we as a community need to band together and help raise our children to be productive, positive, respectful people that we are proud to call "our own." All of our local citizens need to keep an eye out for anyone of any age that appears to be loitering, committing unsafe acts or acting irresponsibly. When you see them speak up, share your knowledge of the mishaps with others, and continue to be vigilant. It is our duty as elders of our community to look after those in need. No one needs to destroy others property, but they have a need that is obviously not being met. The law enforcement agencies cannot be everywhere at once, so it is our responsibility to help out when we can.

We encourage people of all ages to come and visit the museum. Our staff can tell you stories of old ladies being run over by trains (and living to tell about it), to encounters with cougars, to what initiation you had to go through to become a member of the Evansburg's, 'Chicken Club'. Find out about bank heists in Wildwood, diamonds found in Enwistle and mishaps on the Pembina. Unfortunately, until we can leave our buildings open to the public and not experience episodes of theft and vandalism all of our out buildings will remain locked. We encourage all of our visitors to come in and request a tour with a staff member from Wednesdays -Saturdays from 10:00-5:00 p.m.

# SCOUTING CANOLA FIELDS FOR CLUBROOT

**Submitted by Stefan Felsing, Communications Coordinator, Yellowhead County**

With fall approaching it is time once again to remember that clubroot has been detected in Yellowhead County. Clubroot is a soil-borne disease that reduces yields of cruciferous crops such as canola, mustards and some vegetables. The disease causes galls or clubs to form on the root systems of infected plants which then restricts the nutrient and water uptake of the plants reducing the yields of crops. The higher rate of the infection of clubroot in the soil, the more severe the yield loss in the crop will be.

Please note that Yellowhead County Pest Inspectors will be scouting for this disease in canola and other Brassicaceae fields throughout Yellowhead County from approximately August 28th - September 30th. Scouts will be taking all possible preventative measures to limit the spread of the disease.

The primary way this disease spreads is by soil movement from infected fields to non-infected fields. This may be done by soil falling off of farm machinery, vehicles, and off-highway vehicles. It may also be spread by wind and water erosion. Equipment sanitation is essential to preventing establishment of clubroot.

Rotation of crops is highly recommended to prevent the severity of clubroot in ones fields. Continuous cropping of canola may increase the likelihood and severity of infection. There are no treatments currently available for clubroot infected fields/plants so prevention practices are highly recommended. Some things you can do to prevent establishment of clubroot as:

- Check fields regularly and look for abnormalities such as galls and/or clubs on roots, premature ripening and/or wilting plants
- Sanitize machinery, vehicles and equipment before moving in to a new area with a solution of 1% bleach and 99% water
- Use clubroot resistant varieties of seed for planting

In 2015 a new clubroot pathotype was confirmed in the Edmonton

region that is able to overcome resistant varieties of seed. Dr. Stephen Strelkov at the University of Alberta looked at samples collected from several fields and was able to verify higher levels of infection than expected in some clubroot resistant varieties. "This is a different pathotype that none of the commercially available clubroot resistant varieties in Western Canada are effective at managing," says Strelkov.

The Canola Council of Canada

has advised that canola growers and agronomists scout their clubroot resistant varieties this summer with extra effort and vigilance. A focused survey in the Edmonton region has been underway to help better understand the pathogen's prevalence and

distribution.

## Testimonials

"Thank you for working on my horses at the CBHI 2016. They all benefited and were feeling great. The treatment I had myself was so amazing and beneficial. I was experiencing vertigo and feeling nauseous within a half an hour I was feeling so much better and my weekend was great. I did not feel tired and felt very energized. I did have a headache for a short time, a little ache in my shoulder area but that all was very short lived and did not interfere with my day. I really liked my treatment and as a massage therapist would highly recommend this treatment. Thank you Shirley." -Tanya Likes

"I have had BRUTAL sciatica and neck pain for years...chiropractic manages it for brief periods of time...I had one hour long treatment by Shirley Mazeppa and can honestly say I had no pain for weeks after!!!! Improved my mood and allowed me to have day to day tasks not be painful let alone ride!!!! SOOOOOOOOOOOOOOOOOOOOOO looking forward to my next treatment!!!!!!" -Jody Poulin

"I am in disbelief, Shirley Mazeppa brought her PEMF machine to Thorsby where I was competing in a horse event. I have arthritis in both my knees and I was really feeling the hurting today. Shirley hooked me up for 40 minutes on Saturday afternoon, it's now Monday evening and I am still PAIN FREE, my knees feel great. I'll be making a trip to Shirley's next time I start feeling that pain, I won't try to handle it again. Thanks so much Shirley" -Debra Rowney

# SUDOKU OF THE WEEK

## Fun By The Numbers

**Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
