## ATTENTION INTERESTED YOUTHS

Submitted by 3053 (Lac Ste Anne) RCACC

If you are bored with your video games and want to have some real adventures with like minded teens between the age of 12 and 18, ARMY CADETS may be for you!

If you wish to be a leader later in life and recognize teamwork to achieve goals, ARMY CADETS may be for you!

If you like sports and physical fitness, ARMY CADETS may be for you!

If you like to help your neighbours and recognize community service

as a trait for success later in life, ARMY CADETS may be for you!

If you enjoy camping and learning how to survive in the wilderness, ARMY CADETS may be for you!

If you wish to join a FREE youth group to augment your school studies and activities, ARMY CADETS may be for you!

If you have an interest in the Canadian Armed Forces and a possible career later in your life, ARMY CADETS IS definitely for you!!

It just so happens that the local army cadet unit is offering all those things and more to adventure seeking youths.

3053 (Lac Ste Anne) Royal Canadian Army Cadet Corps is starting the new training year on September 4th at the Onoway Heritage Centre and seeking new recruits. The cadets and staff welcome all interested teens to check out our proud unit and its accomplishments. We train every Wednesday evening from 6:50 to 9:15pm.

All questions will be answered regarding rifle marksmanship, map and compass use, community service, leadership skills, drill and discipline, hiking, camping and bushcraft skills.

We hope to see you there!

## ONOWAY'S THRESHING BEE IS COMING TO TOWN!

Submitted by Onoway and District Historical Guild

After more than a decade of threshing bees held on farms around Onoway, this year it will be held on the grounds of the Onoway Museum/Heritage Centre. Saturday, September 21st is the day that bundles will be hauled in from a nearby field and the straw will be flying just north of the Museum.

The Onoway and District Historical Guild is bringing history back to life with the threshing bee but the concept has been broadened to

make this day a Fall Harvest Festival. Admission is by donation at the gate.

Many of the activities that have been part of the annual threshing bee will still be there: horse-drawn wagon rides, blacksmith display, rope-making, spinning, sauerkraut making demo, activities for kids and, of course, home-made pies. Connie Lefebvre will be back with her music.

Once again, owners of antique cars, trucks and tractors are invited to come along and show off their vehicles.

Some new events have been added to the mix. The "Off Beat Vegetable Show" promises to be a winner. People are invited to bring their most unique vegetable – this might be something huge, something with a crazy color or unusual shape. Potatoes, carrots, zucchini, pumpkins, gourds and beets are the vegetables to be judged. Size and uniqueness will be the main criteria. All ages may participate and there's no entry fee!

# Onoway's Threshing Bee is Coming to Town!

Continued from Page 1

The action starts at 11:00 but spectators should definitely plan to be on site around 1:00 p.m. when Eden North Skydivers will be dropping by for a visit. Then check out the

market and craft sale which will be held in the Heritage Centre.

The threshing bee tradition of having lunch out on the field will again be part of the in-town threshing bee. Hamburgers, hot dogs and, of course, home-made pies will be

available while enjoying Connie LeFebvre and company's music.

Rain or shine, the Fall Harvest Festival will take place in the Onoway Museum/Heritage Centre and grounds. Bring family and friends to share our fall bounty – and fun!

## JOKE OF THE WEEK

Miss Hewitt, a kindergarten teacher, was chaperoning recess when Philip came up to her and said that he had found a frog. Miss Hewitt asked if the frog was alive or dead. Philip, aged 6, declared that it was dead. Miss Hewitt enquired as to how he could be so sure that it was dead. Philip replied, 'I pissed in its ear.' Flabbergasted, Miss Hewitt demanded, 'You what, Philip Brown?' Philip added, 'You know, I went to his ear and said, 'PSST!' and it didn't move. So it must be dead.'

# COMMUNITY INFORMATION AND REGISTRATION NIGHT

## Submitted by Darwell District Recreation Association

The Darwell District Recreation Association (DDRA) is hosting a Community Information and Registration Night on Wednesday, September 11, 5:30 - 7:00 PM at Darwell Community Hall for orga-

nizations in the Darwell and surrounding area. Volunteer, not-for-profit and small organizations, such as Girl Guides, 4-H, Cadets, Jujitsu, Public Library, etc., will be sharing information about their scheduled events for the upcoming fall/winter season.

Come have coffee with us ...

find out what is happening in your neighborhood and register for these fun events or join a new club or organization.

If you participated in last year's event, you will have received an email inviting your organization to participate in this year's Community Information and Registration Night.

If you have not been contacted and would like to participate by having a display table and an opportunity to promote your organization, please contact Maria, Secretary, Darwell District Recreation Association at 780-892-3099. There is no cost to participating in our event.

# INTERMUNICIPAL AGREEMENTS

## Submitted by Town of Whitecourt

Whitecourt Town Council has served Woodlands County with two years notice to terminate the intermunicipal Water and Wastewater Agreement.

In March 2013, the Town of Whitecourt and Woodlands County entered into the Agreement for Whitecourt to provide water and wastewater services to the County within an agreed upon service area. This master Water and Wastewater Agreement was signed in conjunction with, and philosophically linked, to the amendment to the

Cost Sharing Agreement on March 11, 2013 where the County agreed to annually transfer 10.4% of its total linear revenue to Whitecourt. From a regional planning perspective, the expansion of the water system allowed our municipalities to work together to attract investment, maximize the highest and best use of land, provide investors more options and flexibility for development on an equitable basis, and defer annexation of land.

Woodlands County recently expressed publicly that it will not be allocating a portion of its linear revenue assessment to Whitecourt. The removal of the revenue sharing creates inequities to the service

model, and it is for this reason that Whitecourt Town Council has provided two years notice to terminate the agreement.

"While Whitecourt Town Council recognizes the value and benefits of this agreement to our region, the County's decision to cancel the linear revenue sharing ultimately made continuing the agreement inequitable and unfair to Whitecourt ratepayers," stated Whitecourt Mayor Maryann Chichak. "It was a difficult decision to make, as we know we thrive as a region when we work together, but it was one that had to be made to protect Whitecourt's continued viability and sustainability. If we did not terminate the agreement,

the County would continue to see the benefits of increased assessment and investment at a cost to Whitecourt taxpayers."

Further, the Town of Whitecourt has submitted a request to Woodlands County Council to schedule a meeting of the Intermunicipal Collaboration Committee so that both municipalities can proceed with intermunicipal agreement negotiations for our communities.

For information on the Water and Wastewater Agreement, and other intermunicipal agreements between Whitecourt and Woodlands County, please visit [www.whitecourt.ca](http://www.whitecourt.ca).

For more information about applying please visit our website at [LSAC.ca/property-tax](http://LSAC.ca/property-tax) or call the County's Assessment and Taxation department.

# REEVE'S REPORT

**September 2019**

The month of August has whipped on by leaving most people asking if summer was ever really here? With the unseasonably low temperatures, and above-average rainfalls our County has been left in a devastating agricultural disaster. Not to mention the damage and devastation that has taken place on our roads and infrastructure. We want all of those that are facing the challenges of this devastating season to know that there are resources available to regional producers, or their loved ones, who may be experiencing undue stress. Reach out and talk to your friends and neighbours, lend an ear or a helping hand if you can. We all need to be aware of the struggles that a lot of our friends are facing.

## AERIAL FLOOD SURVEY

On Thursday, August 1, Lac Ste. Anne County chartered a helicopter service to assess the scale of flood damage and better understand its contributing factors. During two flights conducted over five hours, representatives from the County's Agricultural Services and Fire Services departments surveyed affected farmland, lakefront properties and County infrastructure. Additionally, the Sturgeon River, the Pembina River and the Paddle Dam Reservoir and river system were studied.

Of important note to ratepayers and surrounding municipal neighbours: it was determined that neither beaver dams nor the Alberta Environment-managed weir at the mouth of Sturgeon River are contributors as had been speculated. There is simply an overabundance of water due to excessive rainfall, resulting in higher-than-average water table levels and overland flooding events. This is the third consecutive year that the County has experienced an unprecedented amount of rainfall resulting in extensive flooding — including in areas where flooding has not historically been an issue.

We ask the ratepayers can show understanding and patience as our Public Works crews are out working on the damaged roads trying to get them back into shape. There has just been too much moisture to get out and fix all of the issues, but I can assure you that we will have our crews doing whatever they need to do and put in the overtime to get things back in shape, weather permitting.

## SCHOOL BUS SAFETY

The end of August also brings along the exciting time of year for our little ones as they return back to school. This means that school buses will be back out on the roads, and we ask for everyone to pay attention and be safe. Know that our Enforcement Officers will be out in full force watching for any traffic violations, and there will be a zero-tolerance approach to anyone passing a school bus when the stop signs are out! Look out for each other, let's do our part to keep everyone safe and sound as the new school year begins.

In closing, Council and Administration would like to take this opportunity to welcome all of the of new faces to our County office! We wish nothing but the best to all of the previous staff that have moved onto new opportunities and welcome those that have filled their positions. We look forward to working with you all.

# IT'S WHERE MY STORY BEGINS -IN THE ALBERTA BEACH MUSEUM HISTORY BOOK

Submitted by Alberta Beach Museum

The Alberta Beach Museum is still looking for your story, your family memories, to include in the new history book. If you've been in this area for some time, we want to hear about "where your story begins".

In honour of Alberta Beach's 100th Anniversary, the museum will publish a new history book of the area in early 2020. The stories include both summer visitors and residents living from West Cove to Val Quentin and Alberta Beach, north to include Sunset Point,

Castle Island, Gunn and Ross Haven. Of course, it will also include families farming in the area, and individuals on acreages.

We're looking for the family chronology, but what we really want are stories about the things you remember and value from times past. What organizations and businesses do you remember? What did you do for entertainment, or just plain fun (or not so fun) events? Of course, no history book is complete without pictures, notes, or news articles to accompany the written submissions.

Original photos, clippings or documents will be carefully handled, and

returned as soon as possible. If you're comfortable on a computer, please submit by email, or feel free to mail it. Digital photos should be scanned at 300 dpi resolution or higher, with people in the photo identified.

Submissions can be from individuals, families or groups. If it works better for you, we will visit you to record your stories, travelling anywhere in the metro-Edmonton area. We've prepared a few guidelines to get you started, so contact us to help jumpstart your memories. We reserve the right to edit all submissions.

Submit your stories by email to [albertabeachmuseum@gmail.com](mailto:albertabeachmuseum@gmail.com). On

Facebook Messenger, search Alberta Beach Museum. Drop off your stories at the museum at 5000 - 47 Ave. (the museum is only open July and August from 1 to 6 pm or by appointment, so please call first to ensure someone will be there). You can also mail it to Box 68, Alberta Beach, AB T0E 0A0.

If you'd like to be interviewed, leave a message on the answering machine at 780-924-2140. You can also call Jean at 780-984-5955 to arrange for a convenient time. There's still time to get your story into the book, but with fall's arrival, that's running out quickly.

## EDMONTON HAILSTORM CAUSES \$90 MILLION IN INSURED DAMAGES

Submitted by Insurance Bureau of Canada

The hailstorm that took place on August 2, 2019 in the Edmonton area caused an estimated \$90 million in insured damages, according to Catastrophe Indices and Quantification (CatIQ) Inc.

Type of Insurance Coverage - Insured Damages\*

- Personal Property: \$39.5 million
  - Commercial Property: \$3.4 million
  - Auto: \$46.9 million
- \* initial estimates

The storm began with heavy rain, followed by thunderstorms and heavy winds that reached 91 km/hr. Large

hail damaged house siding and vehicles in west Edmonton, Spruce Grove and Stony Plain. The storm also damaged crops to the northwest of Edmonton.

"Severe weather is causing headaches for homeowners and is costing insurers, governments and Albertans significantly," said Celyeste Power, Vice-President, Western, IBC. "Last year, insured damage from severe weather across Canada reached \$2 billion, the fourth-highest amount of annual losses on record." Unlike the 2013 Calgary floods or the 2016 Fort McMurray wildfire, no single event caused the high amount paid out for 2018's losses. Instead, Canadians and

their insurers experienced significant losses from a host of smaller severe weather events from coast to coast to coast."

As the financial cost of a changing climate has increased, IBC is working closely with governments at all levels to advocate for increased investment to mitigate the future impacts of extreme weather and build resilience to its damaging effects. This includes advocating for investment in new infrastructure to protect communities from floods and fires, improved building codes, better land-use planning and, increasingly, creation of incentives to shift the development of homes and businesses away from areas of highest

risk.

It is not only insurers that foot the bill for severe weather damage, but also taxpayers. That's why all stakeholders should come together to reduce the financial strain caused by flood and other severe weather events. For every dollar paid out in insurance claims for damaged homes and businesses, Canadian governments and their taxpayers pay much more to recover public infrastructure damaged by severe weather.

The amount of insured damage is an estimate provided by CatIQ Inc. ([www.catiq.com](http://www.catiq.com)) under licence to IBC.

## WHITECOURT TOWN COUNCIL UPDATE

Submitted by Town of Whitecourt

Preparations and discussions for the 2020 Budget have begun. Town Council encourages you to share your thoughts on projects and plans at the 2020 Budget Public Input Session. The session is scheduled during the September 23 Regular Meeting of Council at 7:00 p.m. If you are unable to attend the input session, please submit your written comments to the following address by 12:00 noon on Wednesday, September 18:

Town of Whitecourt  
Box 509, 5004 52 Avenue  
Whitecourt AB T7S 1N6  
[administration@whitecourt.ca](mailto:administration@whitecourt.ca)

All comments received regarding the 2020 Budget will be considered by Council during budget deliberations.

The 2019-2020 RCMP Annual Performance Plan has been approved, and includes policing priorities for our community. Priorities include: crime reduction, employee health and wellness, community engagement, and traffic safety. This plan is prepared annually, and this fall citizens of Whitecourt and Woodlands County will have the opportunity to provide input on local policing priorities. An online survey will launch in the coming weeks, and results of the survey will help identify community policing priorities for the 2020/2021 plan. Watch for information promoting the survey in September.

Whitecourt's Quarterly Financial Report for the period ending June 30, 2019 is available online for review. The report identifies revenues and expenditures associated with providing municipal services to residents, and highlights areas of importance and success. This report complements the 2019 Project List which was recently updated with project status for over 140 projects underway. Visit [www.whitecourt.ca](http://www.whitecourt.ca) to review both reports.

Whitecourt Town Council has awarded the Public Works Shop Building #1 Roof Replacement Project to Tru-West Company Ltd. in the amount of \$126,336.00 plus GST.

Work will begin in September on construction of a new entrance sign to the community along Highway 32 South. The new sign will have the same aesthetics and provide a consistent look with community entrance signs located along Highway 43.

Whitecourt has awarded \$2,730 in Vitalization Grant funding to United States Real Estate Corporation for a vitalization project located at 5033 - 52 Avenue.

National Coaches Week is September 21-29 and Whitecourt will be honouring local coaches throughout the week. Community members are asked to nominate their favourite coach and let us know why they are so great by messaging Whitecourt through the official @TownofWhitecourt Facebook page or through #thankscoachWCT. The deadline for submissions is Thursday, September 19, and those nominated will be entered into a prize draw.

Councillor Paul Chauvet will serve as Deputy Mayor from September 1 to December 31, 2019.

# ASSESSMENT INSPECTION NOTICES MAILED

## Assessors are preparing to visit certain County properties this fall.

Submitted by Lac Ste. Anne County | [www.LSAC.ca](http://www.LSAC.ca)

The County's Assessment and Taxation department recently sent out letters to those properties that will be visited by an Assessor this

fall. This letter meets the requirements of the Province whereby property owners are given advanced notice that an Assessor will be entering on their property.

Assessors routinely visit residents properties for many reasons, some

of the most common reasons being:

- Any recent changes with Alberta Land Titles
- Any development permits or ongoing construction
- Ensuring that the correct assessment information is recorded in our

files

If you have any questions or would like to speak with a member of our Assessment Department, please contact the Administration Office at 780.785.3411 or [assessor@LSAC.ca](mailto:assessor@LSAC.ca).

# CONSERVATIVE ENVIRONMENT PLAN INCLUDES TAX CREDIT FOR GREEN HOME IMPROVEMENTS

Submitted by Jim Eglinski, MP – Yellowhead

OTTAWA – Jim Eglinski, Member of Parliament for Yellowhead, wishes to inform constituents that under a new Conservative government led by Andrew Scheer, Canadian homeowners will be eligible for the new Green Homes Tax Credit to make energy efficient home improvements affordable.

“For so many Canadians, making our homes energy efficient is too expensive. This makes it

difficult for Canadians to play a meaningful role in the fight against climate change. Under A Real Plan to Protect Our Environment, Andrew Scheer will make it more affordable for Canadians to lower their emissions by making their homes more energy efficient,” said MP Eglinski.

With the Green Homes Tax Credit (GHTC), Canadians will be eligible to receive a 20% refundable credit on their income tax for green improvements to their homes of over \$1,000 and up to \$20,000. This will allow

Canadians to save up to \$3,800 on their renovations each year.

Green improvements could include:

- installation of high-quality insulation;
- investments in high-efficiency furnaces;
- replacement of doors and windows with more efficient models;
- upgrading of ventilation, heating and cooling systems; and,
- installation of solar panels.

“Green home improvements do not just lower emissions, they can save Canadians money on

bills through lower energy costs. The Green Home Tax Credit will help families install energy-saving products and technologies so that they can realize savings on their bills in the long-term,” concluded MP Eglinski.

A Real Plan to Protect Our Environment focuses on green technology, not taxes as the best way to lower emissions at home.

The Green Homes Tax Credit (GHTC) will be a two-year plan to help Canadians adopt green solutions for their homes.

## OFF BEAT VEGETABLE SHOW

### Taking place at the Fall Harvest Festival

Enter your largest or most unique potatoes, beets, squash, pumpkins & gourds, or carrots! No entry fee and all ages are welcome to participate. Participants will choose a category upon registration. # DONNY LEE KEEPING IT REAL

## - Alberta Country Artist Donny Lee, Will Be Kicking Up Some Tunes At The Max In Drayton Valley September 20th!

**Submitted by Donny Lee Music**

Donny is looking forward to getting up close and personal with the audience in a concert unlike any other, where the vibe of the audience determines the songs of the evening.

“I really enjoy a theatre setting because it gives us an opportunity to breath. It is not just about seeing how many songs we can get in during a performance.”

He said the band will be working off a bit of a guideline for the show but admits that 99 per cent of the time that gets thrown to the wayside and they end up rolling with whatever the crowd is feeling.

“The minute you engage with the crowd and start to get a feel for what is working for them and what is not working for them it is

very easy to just flip the switch, especially when it comes to the cover songs.

“If they are digging old-school traditional country music—George Jones, Johnny Cash, Merle Haggard, Waylon Jennings, then we are going down that road. But if they get a little pep in their step with Alabama, Garth Brooks, Alan Jackson or George Strait then that is where we are going. Wherever I feel the crowd is going we are going to be quick to go there.”

Donny said that his gigs in Nashville have taught him to be versatile and to change at a moments notice. He indicated that playing to suit the crowd mixes things up for, not only the crowd they are performing for, but for them as well.

“I love the art of entertaining people. My agenda by the end

of the show is to make sure that every person in the crowd feels like I notice they are there, share a moment with them and give them an experience they won't forget.

“People remember the moment you left them not the song that you sang.”

The Fort Saskatchewan artist introduced his first release to Canadian Country radio in March with “Country Way Of Life” off of his self-titled album Who I Am, that particular song speaks to a slower pace of life lived by an older generation who worked hard and enjoyed the simple things. He has his 5th release out to Canadian radio and it is charting in the top 100. He has played the music scene in Nashville the for the past five years and has become a very popular performer. He has been nominated the

past two years for the ACMA Male Artist of the year category.

Besides an all around entertainer that obviously has a passion for what he does he and wife Shauna are also strong advocates of giving back to the communities they live and play in.

“Shauna and I have always felt really connected with the food bank, so when we go to these cities or towns we chose the local food bank as the beneficiary of moneys we donate a portion of ticket sales to.

“We use our platform to try and create awareness and help out the local food bank.

This down-home country boy will be bringing joy to the stage and some help to the hungry with his show and promises to ensure everyone has a great night of country music.

# PREVAIL CELLULAR HOMEOSTASIS FORMULA MAX

A NUTRITIONAL BREAKTHROUGH THAT SUPPORTS YOU  
...RIGHT DOWN TO THE LAST CELL!

How do you want your  
**BLOOD** to look?

**Before PrevailMAX:**

- poor circulation
- low energy
- brain fog
- dehydration
- decreased nutrients
- pH imbalance
- poor endurance

**After PrevailMAX:**

- better circulation
- more vitality
- mental clarity
- cellular movement
- nutrient assimilation
- balanced pH
- optimal endurance

**PrevailMAX™** is a nutritional breakthrough that delivers a rapid increase of internal blood cell pressure to speed absorption, enabling the body to take maximum advantage of the nutrients in foods and supplements. The electrolytes are small enough to penetrate your cell membranes, to bind with your cells, and to be carried wherever they are needed in the body.

At the microscopic level of human cells, **PrevailMAX™** supports healthy cell performance – a nutritional breakthrough for your cells.

When you use **PrevailMAX™**, you will feel more energy and an ability to focus like never before. Take a few sprays today and see just how good you can feel!

# GOLFER'S GUIDE

## THESE GOLF TERMS ARE PAR FOR THE COURSE

Golf is a game of sport and skill that can be played at any age. Millions of people in North America participate in golf as a recreational endeavor or a professional pursuit. As of the spring 2016, 25.13 million people in the United States played golf over the previous 12 months, according to Statistica.

People may immediately think Canada's sports-based loyalty favors hockey. However, on the recreational side, golf is king in the country. Canada has the fourth most golf courses of any country in the world, says the National Golf Foundation. Plus, one out of every 10 Canadians

play golf - a participation rate that is more than double that of the United States.

**Storied golf history**  
Although golf can be traced back to the Netherlands during the Middle Ages, many people concur that the modern game of golf - played over 18 holes - is a Scottish invention.

The popularity of the sport began to spread throughout the world from Great Britain. The first permanent golf club in North America was founded in 1873 and was named Canada's Royal Montreal Club. The first 18-hole course in the United States was The Chicago Golf Club.

**Golf lingo**

Understanding the terminology is key to becoming a full-fledged golf fanatic. While golf lingo is extensive, here is a sampling of some of the more popular terms to get novices started, courtesy of the PGA.

**Approach:** A shot hit towards the green.

**Attack:** The relative angle at which the clubhead approaches the ball at impact.

**Backswing:** The motion that involves the club and every element of the body in taking the club away from the ball.

**Birdie:** A score of one under par on a hole.

**Bogey:** A score of one over par on a hole.

**Bunker:** A hollow comprised of sand or grass that serves as an obstacle.

**Carry:** The distance a ball will fly in the air.

**Chip:** A short approach with a low trajectory.

**Chunk:** A poor shot caused by hitting the turf.

**Divot:** The turf displaced when the club strikes the ball.

**Downswing:** The swing forward from the top of the backswing.

**Eagle:** A score of two under par on a hole.

**Golf range:** A facility where people can practice golf swings.

**Grip:** The positioning of hands on the club.

**Hole:** A round receptacle on the green that the ball is aimed into.

**Lie:** As it relates to the golf ball, the position when it has come to rest.

**Links:** Specific term for a course built on linksland, which is land reclaimed from the ocean.

**Mulligan:** An extra shot taken on a poor first shot.

**Par:** The score an accomplished player is expected to make on a hole, either a three, four or five.

**Putt:** A shot on the green.

**Stance:** The position of the feet.

Golf terms are as varied as the game itself. Knowing commonly used words and phrases makes for a more intimate understanding of the sport.

# *fall* HOME RENO **GUIDE**

SEPTEMBER 2019

# fall HOME RENO GUIDE

## WHY HOMEOWNERS SHOULD ADD MORE EXTERIOR LIGHT TO THEIR PROPERTIES

Homeowners are increasingly realizing the benefits of improving the exteriors of their home, which can be just as valuable as improving the interior spaces. As individuals design picturesque garden beds and cultivate lavish lawns or revamp exteriors

with architectural features, they probably want to spotlight these improvements. This is where exterior lighting can be put to great use.

Exterior illumination can cast a glow on various features, but there are many other reasons to

increase lighting around the exterior of a home.

- Safety: Trips and falls can occur at night when trying to traverse walkways and landscapes in the dark, as it can be difficult to see rocks, stairs and uneven pavement. Outdoor

lighting can illuminate pathways, entryways and other areas for safer access for homeowners and their guests.

- Extend outdoor entertaining: Ample lighting can increase the amount of time one can use outdoor spaces and make them the perfect gathering spot. As autumn arrives, days become shorter. However, patios, porches and more can get extended use with lighting.

- Safeguard security: A well-lit home may be less likely to be targeted by burglars than one swathed in darkness and shadows. Lights can remain on all evening or be motion-triggered. Setting lights on timers also ensures that the home is illuminated whether residents are home or not.

- Create drama: Landscape lighting designers can establish focal points around the landscape and highlight the best features of a property. Uplighting in trees, silhouetting techniques to showcase plants and spotlights to show off architectural features are all options for homeowners to consider.

- Add value: The experts at Parker Homescape, a landscape design service, say that exterior lighting can add roughly 30 percent to the value of a home. They also indicate that 50 percent of all home buyers say that outdoor lighting is important when buying a home. If current residents are thinking about selling, now may be the time to invest in exterior lighting.

Improving a home's exterior may be as simple as adding more lighting to improve functionality and beauty.

# fall HOME RENO GUIDE

## THINGS TO CONSIDER BEFORE WARMING UP NEXT TO YOUR FIRST FIRE THIS WINTER

A warm fire can make even the coldest winter day more enjoyable. Fireplaces may not get much use in spring or summer, but come late fall and throughout the winter, the fireplace can be a great place for families to gather.

Before fireplace season hits full swing, homeowners might want to brush up on a few fireplace facts so they can safely enjoy nights spent sitting by the crackling flames.

The Chimney Safety Institute of America advises homeowners with fireplaces to hire a CSIA-certified chimney sweep to clean their fireplaces. After a lengthy period of non-use, various issues could be affect-

ing the chimney, many of which might not be noticeable to an untrained eye. Professional, certified chimney sweeps have extensive knowledge of fireplaces, making them valuable resources who can let homeowners know if any safety issues developed since fireplaces were last used. The National Protection Agency recommends that chimneys be swept at least once per year.

A full inspection of the chimney might be in order as well. Chimney service technicians will conduct thorough examinations of readily accessible portions of the chimney exterior and interior and accessible portions of the appliance and the chimney connection. The CSIA

recommends that homeowners who plan to use their chimneys as they have in the past request a Level 1 inspection, which will examine the soundness of the

chimney structure and flue as well as the basic appliance installation and connections.

# fall HOME RENO GUIDE

## PREVENT GROWTH OF MOLD/MILDEW IN COLDER MONTHS

Mold and mildew are not only unsightly, but unhealthy. These fungi grow readily in damp areas and are found in the air breathed both indoors and outside. If left unaddressed, mold and mildew can threaten the health of a home's inhabitants.

Mildew is a type of mold that remains relatively flush with the surface it grows on. Other molds can grow puffy in appearance. Molds serve the purpose of destroying organic materials, but in high amounts, these microorganisms can cause respiratory problems, sinus congestion, throat irritation, headaches, and other issues, particularly when mold grows unchecked indoors, says Better Homes and Gardens. As

a result, it is essential to address mold before it becomes problematic.

According to Polygon, a drying technology and temporary climate solutions company, the wet season in winter is when molds often grow and expand. Mold can break down the integrity and strength of the surfaces where it grows.

Homeowners can employ the following strategies to prevent mold growth.

- Keep all surfaces clean, using proper cleaning products. Diluted bleach solutions are highly effective at killing microscopic fungi, viruses and bacteria.
- Reduce moisture and humidity by ensuring sufficient air circulation in rooms, partic-

ularly bathrooms and kitchens. An exhaust fan will help remove moisture quickly.

- Fabrics covered in mildew that can be laundered should be carefully removed and washed in chlorine bleach and hot water. An oxygen bleach product also can be effective.
- Invest in a dehumidifier that can reduce moisture in the home in problem areas, such as damp basements or garages.
- Fix plumbing leaks as soon as possible.
- Remove damp leaves and snow from areas around the foundation of the home. Ensure that gutters and downspouts are clear of debris and can shuttle water away from the house effective-

- ly.
  - Replace cracked or defective mortar in basements.
  - Make sure all seals on windows and doors are not compromised and are in good working condition.
  - Be sure an HVAC in-line humidifier is adjusted to the right setting and isn't pumping too much moisture into the heated air; otherwise, the added humidity can contribute to mold.
  - If there is a flood or water infiltrates a home in other ways, hire a professional service to help clean and dry the home effectively.
- Mold and mildew are problematic, but with diligence they can be kept at bay.

# fall HOME RENO GUIDE

## Things To Consider Before Warming Up Next To Your First Fire This Winter

Continued from Page 15

Technicians also will verify if the chimney is free of obstruction and combustible deposits.

Homeowners also should inspect their chimney dampers before lighting their first fires of the season. Dampers should open and close smoothly. If not, a service technician can help fix or replace the damper.

Firewood is another thing homeowners must consider before lighting their first fires of the season. The CSIA says that well-seasoned firewood works best, noting that wood that is not well-seasoned will produce more smoke than heat. In ad-

dition, the home improvement resource This Old House recommends using dense wood that's been split and stored in a high and dry place for at least six months. Oak is an example of dense wood that, when stored properly, can make for an enjoyable fireplace experience. Avoid softwoods like pine. Pine can produce a lot of creosote, which is a byproduct of wood combustion. Creosote is highly flammable, and as it builds up in a chimney, the risk for a chimney fire increases. Choosing the right wood, making sure it's well-seasoned and having a chimney professionally cleaned can reduce the risk of a creosote-related chimney fire. A Level 1

inspection should determine if there are potentially dangerous levels of creosote deposits in the chimney.

Before nestling up to a fire-

place this winter, homeowners should consider a host of factors and safety measures to ensure their fireplaces are safe and ready for the season ahead.

# fall HOME RENO GUIDE

## SECRETS TO MAKING YOUR HOME LOOK LIKE YOU HIRED A DESIGN PRO

Photo spreads in home design magazines can be awe-inspiring. Quite often homeowners wish they could lift the looks right off the pages of magazines and transform their own homes into picture-perfect retreats.

It takes an eye for design to pull a room together - even with inspiration - and make it both functional and attractive. While hiring an interior designer is one way to go, homeowners can use some of the tricks and techniques the designers employ to do a remarkably good job of improving the interiors of their homes without such help.

### Embrace texture

The colors used in a home can add impact, but designers often

utilize various textures to create aesthetic appeal. A single color scheme can be enhanced by various fabrics. Consider a leather sofa made more cozy with chenille pillows next to a rustic side table. Figure out ways to incorporate a few different textures to add depth to the room.

### Be careful with color

Many high-end homes showcase neutral shades that are enhanced by pops of color. If you like a rich, royal purple, leave room for other colors as well. Add touches of purple in vases, throw pillows and other accessories.

Also, many designers work in shades of three for room colors. There may be one main color

for walls, another color for larger accents, such as couches and chairs, and then a third color that pops in accessories such as flowers, pillows and collectibles. These can be any colors, but the most muted tends to be the more abundant shade.

### Add a bit of bling

Glittery items and metallics can add a touch of luxury feel to any space. A shiny table lamp, mirrors, a sparkling chandelier, and the like are easy ways to produce a high-end feel. Reflective surfaces also will cast light around the room, giving the illusion of a larger space.

### Choose a big statement piece

Many homeowners make the mistake of filling a room with

several small pieces of furniture that only contribute to clutter. Instead, look for a statement piece, which can be a cabinet, armoire or chaise. Mix and match large and small elements for a sense of balance.

### Accessorize

Finish the room with accessories and flowers. When placing and hanging knickknacks and wall art, odd-numbered groupings often look the most cohesive and interesting. Experiment with different scales and heights for even more dimension.

When inspiration hits, take some cues from interior design pros to make spaces look like they belong on the pages of your favorite magazines.

# fall HOME RENO GUIDE

## HOUSE POWERWASHING TIPS

Powerwashing, also known as pressure-washing, utilizes a high-velocity water spray to remove dirt and residue from the exterior surfaces of a home. It is frequently used on vinyl siding, concrete and sometimes wood decks to treat mildew and other growth that accumulates over time.

Powerwashing can be a great way to remove grime without having to scrub by hand. But it requires a delicate touch to get it right. Sometimes it is best to leave the job to professionals. But homeowners willing to give it a go can try powerwashing themselves, as various stores rent power washers.

The home improvement website ImproveNet says that, until very recently, pressure wash-

ers were almost exclusively commercial machines sold to professionals or rented to do-it-yourselfers. Lately manufacturers have targeted homeowners looking to buy with lightweight options. For those who see powerwashing as a routine venture, purchasing a unit may be worth the investment.

It is important to exercise caution when operating a powerwashing machine. The high-velocity spray can tear through skin. It is key to get a feel for the washer, and try less pressure first to get a handle on the magnitude of the tool.

Don safety gear prior to using a pressure washer. Gloves, eye protection and ear protection can be handy. Most units will connect to a standard garden hose.

Choose old clothing and expect to get wet. Never point a powerwasher hose at anyone and do not attempt to rinse feet or hands in the spray.

The renovation resource The Family Handyman suggests starting with a wide-degree nozzle to test out the spray on the surface that needs to be cleaned. A 15- or 25-degree nozzle is usually the wand for general cleaning and paint stripping without damaging the surface of the home. Experiment with an optimal distance of the washer wand to get the desired cleaning effects without causing any damage. Work using a horizontal and slightly downward angle to avoid driving water up under the siding of a home.

Avoid spraying any electric

wires or components on the home. Also, try not to spray upward, and angle the spray away from doors, windows and vents.

Some washers have reservoirs that will hold a detergent solution. Choose the right detergent for the job. Keep in mind that cleansers containing bleach can damage surrounding plants, so they may need to be covered while the washing takes place.

Avoid the use of ladders when operating a powerwasher. The push-back from the wand can cause falls. Instead, opt for an extension wand to address the upper reaches of a home.

Powerwashing a home is an effective way to remove stubborn grime and refresh the look of a home's exterior.

Family run, local business, we care!

# ALBERTA RCMP REMIND CITIZENS OF THE GOOD SAMARITAN DRUG OVERDOSE ACT

Submitted by Alberta RCMP

Edmonton – From January 2016 to December 2018, 1,971 deaths in the province of Alberta have been attributed to apparent opioid-related overdoses. Alberta RCMP were dispatched to several of those incidents and determined that, in some cases, it is believed that bystanders, friends or family members were hesitant to call emergency services for assistance due to concerns of potential legal repercussions. Every overdose death is tragic, and many of these potential tragedies can be avoided if people who witness overdose situations seek emergency help promptly.

To encourage people to seek potentially life-saving emergency help in an overdose situation,

the RCMP, in collaboration with Health Canada and the Chief Medical Officer of Health of Alberta, want to remind residents of the Good Samaritan Drug Overdose Act, which provides some legal protections for people who experience or witness an overdose and call 911 or their local emergency number for help.

Legal protection granted by the Act

The Act is meant to encourage people to seek emergency help during an overdose by helping to reduce fear of seeking police or medical assistance. It applies to anyone seeking emergency assistance during an overdose, including the person experiencing an overdose. The Act protects the person who seeks help, whether they stay or leave from the overdose scene, as well as

anyone else who is at the scene when help arrives.

The Act can protect you from:

- Charges for possession of a controlled substance (i.e. drugs) under section 4(1) of the Controlled Drugs and Substances Act

- Consequences of breach of conditions regarding simple possession of controlled substances (i.e. drugs) in: pre-trial release, probation orders, conditional sentences and parole.

It is important to note that the Act does not provide legal protection against more serious offences, such as: production and trafficking of controlled substances, and all other crimes not outlined within the Act.

How to help save a life

Drug overdoses could happen to someone close to you –

a friend, a family member, or someone nearby. Staying at the scene is important to help save the life of the person experiencing an overdose.

Witnesses should call for emergency help and render whatever assistance they can, including administering naloxone – a fast-acting drug that temporarily reverses the effects of opioid overdoses – if it is available, providing first aid, including rescue breathing (CPR) if necessary until help arrives, and staying calm and reassuring the person that help is on the way.

The Good Samaritan Drug Overdose Act is part of the Government of Canada’s comprehensive approach to addressing the opioid crisis.

# NOTES FROM THE ONOWAY LEGION

Submitted by Submitted by Onoway Royal Canadian Legion

Family Fare at Dinner

On Friday, September 6, it'll be old-fashioned family fare for dinner – meatloaf, corn, potatoes, coleslaw, pie and ice cream. Take a night off from cooking and enjoy the evening with friends.

Book your reservation by texting 780-340-0760, or leave a message on the Legion answering machine at 780-967-5361. Doors open at 3, with the meal served from 5:30 to 7 pm. Adults pay \$15; kids up to 10 years cost \$9 while 5 and under are free.

As usual, the bar will be open, along with the usual draw for a free meal. You'll have a chance to buy raffle tickets on a delicious meat package, on the 50:50 draw, or the Chase the President raffle, a progressive jackpot that increases in value each week there's no winner.

Ribs are on the Menu Again

On Friday, September 13, Blakeman Drilling is sponsoring another dinner of Bob Clark and Lorne Olsvik's famous ribs. Watch for details.

Cards, Anyone?

There are a couple of card tournaments coming up this month. On Sept 7, it's a Cribbage pairs tournament in Leduc. Then, Sept 14, it's a Euchre tournament in Stony Plain. The Legion is already sending two teams to each tournament, but if you're interested in participating, call the legion at 780-967-5361.

Did You Know?

You don't have to be a legion member to participate in many of the legion activities, and children are welcome at the regular Friday night dinners.

# PARKLAND RCMP MAKE ARRESTS FOR BREAK AND ENTER

**Submitted by Parkland RCMP**

Stony Plain, Alta. - On Aug. 26, 2019 at 12:00 a.m., Parkland RCMP responded to the report of a home invasion that occurred at a rural residence in the area north of Hwy 16 on Range Road 264.

The female home owner heard someone trying to break down the garage door. She contacted her husband who arrived in time to observe several individuals entering a car that was parked in his driveway. When confronted, the car fled the scene. The home owner was following the suspects in his vehicle when one of the car's occupants proceeded to shoot at him. The home owner immediately stopped and called and updated police. No one was injured.

The RCMP located the car. The occupants of the car had

fled the scene on foot. With the assistance of Edmonton Police Services Helicopter Air One and RCMP Police Dog Services (PDS), police were able to locate all five suspects in the bush near the car. The gun safe that was stolen from the residence and a shot gun were located in the car. The car and the license plate were determined to be stolen out of Edmonton. The five suspects were arrested without incident.

RCMP PDS returned in the daylight to the area where the subjects had been apprehended and located the stolen rifles and a quantity of drugs believed to be methamphetamine.

Elliot Steinhauer (21) of Saddle Lake, Chantel Cardinal (24) and Dorian Hunter (18) of Edmonton, and James Auigbelle (25) and Aaron Auigbelle (34) of Morinville are facing 14 charges including:

- Pointing a firearm
  - Carrying a concealed weapon
  - Break and enter with intent – residence
  - Assault with weapon
  - Possession of property obtained for the purpose of trafficking over \$5000
  - Possession of methamphetamine
- Elliot Steinhauer has additional charges of:
- Weapons possession contrary to order and fail to surrender authorization
  - Fail to comply with probation order
- Aaron Auigbelle has additional charges of:
- Weapons possession contrary to order and fail to surrender authorization (x2)

All five were held for justice interim hearings. Dorian Hunter and Chantel Cardinal were released with a recogni-

zance. Their first appearance is on Aug. 28, 2019 at the Stony Plain Provincial Court. Elliot Steinhauer, Aaron Auigbelle and James Auigbelle were remanded into custody and will be appearing via CCTV on Aug. 28, 2019 at the Stony Plain Provincial Court.

The RCMP would like to remind everyone not to put their own safety at risk when providing assistance. Call 911 immediately and try to provide as many details as possible.

If you have any information in relation to this investigation, please contact Parkland RCMP at 780-968-7267. If you wish to remain anonymous, you can contact Crime Stoppers at 1-800-222-8477 (TIPS), online at [www.P3Tips.com](http://www.P3Tips.com) or by using the "P3 Tips" app available through the Apple App or Google Play Store.

SERENITY FAMILY SERVICE SOCIETY - YOUR NOT-FOR-PROFIT SOCIETY

# SUDOKU OF THE WEEK

## Fun By The Numbers

**Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

**ANSWER:**

6	1	4	2	7	9	5	3	8
2	7	3	8	5	1	4	9	6
5	8	9	6	3	4	7	1	2
8	3	5	4	9	2	1	6	7
4	6	2	3	1	7	9	8	5
1	9	7	5	6	8	2	4	3
9	2	1	7	8	6	3	5	4
7	5	8	9	4	3	6	2	1
3	4	6	1	2	5	8	7	9

6		4					3	8
2			8	5	1	4		
5	8		6			7		
8	3			9		1		
	6	2	3	1			8	5
	9		5	6				
	2	1		8	6	3		
		8	9		3			1
3			1		5		7	

**Like puzzles?** Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

# COMMUNITY EVENTS 2019
