## GYPSED SUPPORTS ONLINE SAFETY LEARNING FOR FAMILIES

Submitted by GYPSED

On Tuesday, March 23, 2021, GYPSED partnered with the Saffron Centre to host a Division-wide community presentation on online safety and supporting parents in talking to children and youth about the safe use of technology: CYBERWORLD: WHAT HAPPENS WHEN YOUTH

PRESS SEND?

The Saffron Centre provides counselling services and education to support those who have been directly impacted by sexual violence.

Participants learned about the popular websites, games, and apps that are popular with children and youth, as well as the legal consequences and

the potential dangers that may occur with online use. Helpful tips on starting conversations with children and youth about online safety were also shared.

Another great opportunity to assist our parents and communities with valuable information and resources from the Division and its many education partners!

## MAY DISCOVERY BOX AT TIPPLE PARK MUSEUM

Submitted by Melissa Killick, Tipple Park Museum

Aloha!

We are creating new and innovative program ideas during this pandemic season here at Tipple Park museum located in Evansburg, Alberta. Recently, we have introduced our monthly discovery box that allows Children to explore and learn a new culture or his-

toric figure. Each box costs \$20.00.

For the month of May Children will get to learn about Hawaiian Culture with hands on activities and visuals. The box will include: how to make a lei, craft and design a turtle, learn Hawaiian language and culture, search and find, learn how to hula dance, activity sheets, Hawaii postcards and learn how to draw a hibiscus flower. If ten boxes

are sold there be a draw for a Ukulele!

Also, for each box sold, \$1.00 will be donated to Marine Institute's Maui Ocean Center to help injured Sea Turtles.

If you would like to order a discovery box please pre-order before May 4th by emailing tippelparkmuseum@gmail.com or phone 780.727.2240.

Happy Discovering!

# LILSA LAKE WATER QUALITY SURVEY

**JOKE** *of the week*

An old man was wondering if his wife had a hearing problem. So one night, he stood behind her while she was sitting in her lounge chair. He spoke softly to her, "Honey, can you hear me?" There was no response. He moved a little closer and said again, "Honey, can you hear me?" Still, there was no response. Finally he moved right behind her and said, "Honey, can you hear me?" She replied, "For the third time, Yes!"

**Submitted by LILSA**

Lake Isle and Lake Ste. Anne (LILSA) is interested in hearing the viewpoints on lake water quality from residents & general users at Lake Isle & Lac Ste Anne Lake. Our primary goal from this survey is to find out the current knowledge base around the water quality, overall lake health, and your major concerns surrounding it.

This survey is completely anonymous, however if you would like any further information or would be willing to take any additional follow up surveys, you can leave your contact information at the end of the survey. Providing us with your contact information also gets you entered into a draw for a gift card to a local business. This survey is available until June 15, 2021

LILSA, a non-profit society, is committed to promoting the preservation of Lake Isle and Lac Ste Anne Lake, located 40 minutes west of Edmonton, Alberta. Our goal is to maintain and improve the quality of the water. Our society is run entirely by volunteers.

Please go to the LILSA website <https://www.lisawaterquality.com/> and click on 'Take Survey Now' which is located on our homepage.

# QUESTIONING THE GOVERNMENT ON THE ARRIVAL OF MORE VACCINES

Gerald Soroka, Member of Parliament for Yellowhead, asked the following question today during Question Period.

He asked: "Madam Speaker, as other countries are coming out of this pandemic, small communities in my riding, such as Breton, are just beginning to receive their first doses because of the Liberals' failure on procurement. Many of these communities have expressed concerns with delay and uncertainty of the timeline getting their first and second doses. In March, witnesses at the health committee confirmed the off-label interval was a decision exclusively based on procurement schedules. When will we get enough vaccines so we can stop rationing and use the manufacturers' recommended interval?"

Reply: Mr. Steven MacKinnon (Parliamentary Secretary to the Minister of Public Services

and Procurement, Lib.):

"Madam Speaker, I know that the member will join me in hoping that the citizens of his riding in Yellowhead and, indeed, all Canadians have access very soon to the dose and the evidence is their first dose will be coming very quickly. The 50 million vaccine doses that we are expecting by the end of June are, of course, more than enough to cover the first dose and, indeed, will make a significant dent in the second dose for all Canadians. We know that Canada is third in the G20 in getting that first dose to its citizens. We all look forward to the end of this pandemic and I know the hon. member joins me in encouraging his citizens to get vaccinated when it is their turn."

# Spring HOME RENO GUIDE

## A BUYER'S GUIDE TO HOME AIR CONDITIONING SYSTEMS

Few experiences provide as much relief as walking into a cool room on a hot summer day. Air conditioning systems make such experiences possible, and homeowners' decision in regard to which one to install in their homes is significant.

Homeowners may not know where to begin in regard to finding the right air conditioning system for their home. According to the Air-Conditioning, Heating, & Refrigeration Institute, the best systems provide steady, dependable perfor-

mance for many years when sized correctly for the home. Correct installation and routine maintenance also can ensure homeowners' air conditioning systems withstand the test of time.

How do I know which size is

best?

When shopping for new air conditioning systems, homeowners must consider a host of factors to ensure they get the best match. The AHRI notes that the home's age, the number and quality of its windows, how well it's insulated, the number of stories it has, and its square footage are among the factors to consider. Homeowners can benefit from working with trained technicians who can investigate each of these factors and recommend the correct system. The AHRI recommends homeowners ask their technicians to perform a Manual J analysis, which is a standardized formula that can help homeowners get the perfect system for their homes.

What about energy efficiency?

Energy efficiency is an important consideration when purchasing a new air conditioner for a home. Energy rates vary depending on where a person lives, but rates remain pretty high across the board. The Energy Information Association notes that residential electricity rates increased throughout the United States by about 15 percent between 2009 and 2019. An energy-efficient unit can help homeowners save considerable amounts of money, so homeowners can ask their technicians to recommend energy-efficient units that suit their homes. A unit that adequately cools a home without consuming a lot of costly electricity should be every homeowner's goal. The U.S. Department of Energy employs the Seasonal Energy Efficiency Rating, or SEER, to inform consumers about the efficiency of each air conditioner. This rating is noted on the Energy Guide® label on each unit, and the higher the number, the more efficient the unit.

Home air conditioning systems are costly. But the right choice of unit can keep homes cool without costing homeowners a fortune in energy costs.

# Spring HOME RENO GUID

## STREAMLINE YOUR OUTDOOR LIVING/ DINING/PLAYING AREA

Be ready when spring arrives to get busy sprucing up your home's exterior and its outdoor living space. Invest family time to envision which projects would transform it into a more organized, inviting retreat from the hustle and bustle of everyday life. Do doors, door frames, porches/railings, gates, decks, patios, and outbuildings need to be cleaned, repaired, repainted or replaced? Do you need more furniture, flower boxes or play equipment like cornhole boards?

Once a project list is made, visit your local Woodcraft store, go online at woodcraft.com, or use a Woodcraft catalog and call 800-225-1153 to stock up on all the tools, materials and supplies you need. Woodcraft store

employees can help with advice about products and projects, technical support is available at 800-535-4486, and woodcraft.com offers how-to articles and videos.

Woodcraft Magazine Classic Project Plans make it easy to build the inviting Swing Bed (pictured), as well as picnic tables, benches, hand grill carts, potting benches, Adirondack chairs, and much more.

Restoring Outdoor Projects, a Woodcraft blog, offers tips to make Adirondack chairs and other wood pieces and structures look new again. Cleanup & Repairs  
Howard Clean-A-Finish Wood Soap easily breaks down grease, grime and wax on all wood surfaces. It effec-

tively cleans without ammonia or bleach by using a traditional blend of gentle yet powerful, natural soaps. Use it also on plastics, upholstery, carpet and vinyl.

Blue Bear Paint and Ure-

thane Stripper (SOY-Gel®) is Franmar Chemical's effective, effortless and odorless coating remover made from soybeans and natural elements.

Briwax ChairRX is an easy solution for repairing loose chair joints. Inject ChairRX into a small hole you drill in the joint, and the thin unique formulation will penetrate the wood cells to permanently swell the joints and bond them together. In 12 hours, the chair will be wiggle-free. For other gluing tasks, consider Titebond III Ultimate Waterproof Glue, a waterproof adhesive designed for interior and exterior use that has superior strength, is unaffected by finishes, and cleans up with water.

Building

For layout tasks, pick the Pinnacle Combination Square - blade, square head and center

finder. The 12" blade features extra fine graduations in 8ths, 16ths and 32nds. Combination head has a scribe and spirit level.

Saw wood to size with the Festool CARVEX PS 420 EBQ-PLUS Jigsaw that can cut up to 43/4" wood beams, as well as aluminum and steel. The Razorsaw Ryoba handsaw from Gyokucho, also a powerful cutting tool, has ripping and crosscutting teeth on opposite sides and an adjustable pivot point for angled cutting in tight spaces.

Norton Hand Sanding Kits cover most sanding chores. Detail Sander fits well in hard-to-reach places. Finishing Block Sander makes general sanding quick and comfortable.

The Montana Brand 4-in-1 Drill and Driver comes in a 10-piece set that includes all you will need to drive #6, #8, #10, and #12 screws. Add the Montana Brand 3-Piece HD Self-Centering Plug Cutter Set - unique in the wood-working industry - and you are ready to build in the outdoors.

For fastening, consider the handy Freeman 23-Gauge 1" Pinner & 2" Brad Nailer Combo Kit.

Finishing

If color is a factor in painting an outdoor project, select General Finishes Milk Paint, available in 33 colors. This high-tech, water-based acrylic paint is durable, easy to apply and rated for interior and

exterior use. Colors may be mixed or used with General Finishes water-based Glazes and Wood Stains to create decorative finishes and effects.

Other coverings for outdoor projects include:

- General Finishes Exterior 450 Varnish is for outdoor use. UV absorbers minimize fading, and mildewcides help retard mold and fungus growth. It is ready to sand in one hour.

- System Three Marine Spar Varnish is a urethane-enhanced film finish formulated to protect against the harshest salt water and marine environments, as well as protect outdoor projects.

To apply coverings by hand, consider Redtree Onyx White China Bristle Brush-

es (solvent-based finishes) or Redtree Matey Synthetic Bristle Brushes (water-based finishes).

For spraying, the HOMERIGHT Super Finish Max features a built-in 450-

watt sprayer, eliminating the need for a hose or motor to move around. Spray milk paint, chalk-style paint, latex paint, enamels, primers, urethanes, stains and varnishes.

## RESPONSE TO MLA MARK SMITH

Submitted by Peter Willott

The April 20 publication presented a message from MLA Mark Smith regarding the New Curriculum. I seek to respond.

When the New Curriculum was shared, an introductory paragraph stated: "Unlike the previously proposed curriculum, which was constructed to teach students concepts, the government is now adopting a philosophy that there is a common cache of knowledge every child should know, and which should be taught in chronological order." It seems to copy heavily from curricula in the United States, which is rather silly, since Canada has a better record in Education.

It is true that facts are important. However, simple facts are not much unless you are playing Trivial Pursuit. Facts are easy to find when and if needed. Their understanding is not. Without concepts, facts are merely disjoint pieces of data, without use until placed within the context of a concept. Simple facts do not lead to true education. Ask your trained pet or your iPad.

An example from Mathematics might show the reason for conceptual context. In language, even a four year old understands that "Joe went to the store" and "I went to the store" means that both of them went to the store. That four year old knows the concept behind the Distributive Property of mathematics. That concept can help carry the four year old through the factoring of quadratic equations and university calculus. The 'basic facts' are rather trivial. The multiplication tables are basic, admittedly; good teachers do not just drill them, though. Good teachers introduce them via patterns, or through gimmicks such as 'rectangular numbers' that use the Commutative Property to simplify the memorization as well as lead into studies of area, etc. When similar relationships will be encountered, the student can learn them easily.

In English, many people seem to have difficulty with confusion of "they're" and "their" and even "there." Also between "it's" and "its." Memory drills have not given them a conceptual understanding that the apostrophe is used primarily to indicate a missing letter over its use in a possessive. Possessives are often mistaken for plurals, and

vice versa. That is where placing "facts" over "concepts" fails us all.

In Social Studies the New Curriculum is often not pertinent to student ages or backgrounds. To a Grade Two student, what is the meaning or the need of knowing Genghis Khan being born where and when it happened, or which king did what to whom? Those facts may never again arise in his/her lifetime. The youngster is still not sure who is the mayor, or know

about the three levels of his own governmental structure. Surely the Grade Twoer should learn about those before hearing about Caligula or Timon.

In Science, the emphasis, in Grade Two, at least, is supposedly placed on Inquiry and Testing to discover things such as buoyancy. This sounds rather like the true discovery in Mathematics, which the New Curriculum does not want. Teachers start from, and

build on, students' knowledge and concepts. However, despite the fact that children have seen coffee cups and drains, neither solubility nor viscosity is discussed.

It is time for a rewrite. This time, perhaps teachers could really be involved and UCP ideology ignored. Oh, yes, perhaps we might also learn some ideas from the extensive reviews done by the previous administrators of the province.

# SUDOKU

*of the week*

**Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

**Like puzzles?** Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
