WEDDING DRESS EXHIBITION AT TIPPLE PARK MUSEUM

Submitted by Tipple Park Museum

Tipple Park Museum is thrilled to announce our wedding dress exhibition is

now running. Everyone has been so generous loaning their dresses. We are truly grateful for the overwhelming support.

We are showcasing dresses from the 1940s to the 1990s. Not only are we displaying dresses but we have also asked ladies to write a description about picking their dress along with a 12 * 18 picture of them wearing it. We have neon dresses, handmade, crochet, fragile, lace, and everything in between on display.

What fun to read all the

stories behind the dresses. Some will make you giggle, while others will put a big smile on your face. Certain stories might even make you relate to your wedding.

Ladies who donated their dresses will have the first private viewing of the exhibit Wednesday, February 2nd. After the private showing, it will be open to the public Wednesday - Saturday 10 - 4 pm until April 15th.

This exhibit is such a treat. See everyone soon!

PARKLAND RCMP LAUNCHES NEW VIDEO CAMERA REGISTRY

The Parkland RCMP are excited to announce a new voluntary surveillance camera registry program, called Parkland CAPTURE (Community Assisted Po-

licing Through the Use of Recorded Evidence). This program will cover communities within the Parkland RCMP detachment area in Parkland County and Lac Ste Anne County.

lance, and are willing to share video camera footage when requested, can sign up. This initiative won't replace officers from knocking on doors, ...

... but it will help officers track down video evidence in an ongoing criminal investigation in the area.

The program aims to reduce the time an officer needs to search for and gather video evidence when conducting an investigation. The Parkland CAPTURE program allows a person or business to upload a portion of the video requested. This allows the officer to evaluate the video footage before deciding to ask for a copy.

To get started, visit the website at www.parkland-capture.ca and create an account. From there you can enter your contact information and video cameras on the secure site. Your information is not available for anyone to see. If an officer needs to contact you, they will do so by the information provided.

Things to know about the program:

- This is completely voluntary and consent can be withdrawn at any time

- You can share your video footage through the website for an officer to view before they decide if the video will help in their investigation

- An officer can provide you with a USB thumb drive to copy the video onto
- An officer can not download the video, they can only view it

- Registering a camera and contact information allows the RCMP to see a list of security cameras so they can contact the owners during an investigation

This strategy is another way the Parkland RCMP are working with our communities to help solve crime faster, together. By providing video footage to police during an investigation, communities increase the chance of a successful prosecution.

JOKE of the week

A husband and wife had just finished eating pancakes. To the wife's surprise, her husband walked back to the stove and started making more pancakes.

Confused, his wife asked, "Honey, we just ate, why are you making pancakes?"

"They're for the dogs," he replied.

"Why are you making pancakes for the dogs?" she asked. He replied: "Because they don't know how."

WHAT MATTERS TO YOU - 1984 AND ANIMAL FARM

Submitted by MLA Shane Getson

I'd like to thank everyone for the feedback and taking time to read the writing that's become a weekly routine for me.

I've told a few folks in conversation that it's been extremely difficult to connect with people and have these discussions with the way things are right now. We do not have air superiority - it's extremely difficult to get any coverage that isn't negative in the corporate media stream. It's also difficult on social media, as we have seen the Twitter trolls are relentless in their task. Folks around here are good at the ground game though - the word-of-mouth face-to-face chats, town halls, and hollering across the fence to the neighbors. The small local papers also play a huge part and I'm so grateful that they're still around. And the brave souls out there that share things on social media - something more grass roots than what the mainstream media outlets want people to see and hear.

Of course, not all feedback I have received is people agreeing with me, and honestly, I am good with that. I encourage open conversation. And when a certain individual decided to write the Leader of the Official Opposition to bring to her attention my "outlandish" position when it comes to socialism and healthcare reform, well, honestly, that brought a smile to my face. I can't stomach the taste of the socialist kool-aid, and I sure as the heck won't shy away from doing what I can as an MLA to help fix the healthcare issues we have

in our area.

The events we are seeing in our day are downright strange. I've cautioned before is that nothing can be so permanent as "temporary" government policy - that is, if the people don't make a clear choice to restore things. Human nature is funny that way. It takes discipline and drive to finish tasks, and far too many

times we run out of time and motivation to go all the way to the finish line. There is an old saying that money is the root of all evil, but from what I've observed complacency has caused way more negative outcomes than anything else. I remember sloth is one of the seven deadly sins. "When good men fail to act" as Hemmingway once wrote.

I have recently seen many good people coming together to voice their concerns about mandatory vaccination requirements for truckers north and south of the border. I have seen overwhelming support from Albertans, and Canadians at large, for the truckers and those who disagree with the nonsensical policy.

We are no longer dealing with the original form of covid that the vaccine was designed for. In addition, truckers who don't have the vaccine have not missed a beat over the last two years. They've kept going to

keep us fed this whole time. Forcing the issue now does not make sense for a good many of people out there cheering on the sides of the roads.

On the flip side, I've seen a Prime Minister with a bunch of the usual folks trying to label the truckers and their supporters as a

pseudo terrorist group, as racists – all the usual slanders (you might as well record it and put it on repeat at this point). I've seen reports from the mainstream media trying to misrepresent the truckers as protesting road conditions. I've seen false reports that the Go-Fund-Me page (over \$5 million donated for fuel and lodging) is being withheld. I've heard dueling narrative that there are no issues with supply chains and that all the groceries you want are on the shelves, while at the same time hearing them say you may not be able to get what you want but you will be able to get what you need.

There are striking similarities between what we are experiencing today

and what George Orwell wrote about in Animal Farm (1945) and 1984 (1949) where he was critical of communism and state socialism. The cause and effect of two world wars was still very fresh in the minds of many. WWII showed how deeply humanity could dive into darkness before, thankfully, enough people came together to pull us back from the brink. Tinkering with various forms of government commenced over the following decades, and it's no secret the most devastating effects on human rights and freedoms came from countries that embraced communism.

Are you considering raising chickens? Or do you currently raise chickens but have questions that Google just can't seem to give you a straight answer on? Join Dr. Frank Robinson, a Poultry Production Professor for the UofA, on February 16th from 6:00pm-7:30pm to get all your questions answered.

Dr. Robinson has 45 years of experience with general poultry husbandry, so he knows his facts about chickens! The presentation will go through some of the lesser known facts about chickens, and some tips for raising chickens in general, the second half will be a questions and answer period.

This workshop is intended for residents who own a small flock or for those that are thinking of raising chickens.

Countries where the citizens had the least number of rights and freedoms to control their own destiny. Countries that banned firearms ownership, controlled the means of production, and ran their own state media.

Fast-forward to our own day, where the Prime Minister speaks of the citizens in his own country by when asking “how long are we going to tolerate them?” All while his crew and the folks in Alberta’s Official Opposition cozy up to groups like Extinction Rebellion who openly state they would not be above killing public figures and blowing up infrastructure. These same political figures, who

openly want additional restrictions, control of the media, removal of firearms from lawful citizens, are now citing the truckers in this peaceful cross-country protest as pseudo terrorists and are using their influence to keep the story from reaching the Canadian public. We are in strange times indeed.

It’s up to all of us who remember what it was like to have freedoms to ensure that the real Canada emerges from these last two years, and not the “built back better” version. An addition or renovation is nice occasionally, but we can’t sit back and let a whole neo-Marxist demolition and rebuild take place.

Many ask what can be done about all this. Folks

need to get off the bench and flex their democratic muscles. There are many opportunities throughout Alberta and Canada’s political process for folks to be involved, and they need to before that ability disappears - before our country resembles a George Orwell novel (if you haven’t read the novels, please do - it takes on a far more serious nature reading it as an adult than it did when I was young).

Join a political party. Take part in forming policy. Take part in the internal party elections, choosing who sits on the boards and who ultimately leads the party. I can tell you firsthand, that grass roots involvement does make an impact, and that if you don’t participate in the

process, ultimately the minority of the population will dictate what the majority will be doing.

Let’s keep talking with one another, even when we have contradictory opinions. Let’s keep expressing ourselves and sharing real stories from real people. Those truckers rolling on down to Ottawa show that in a free country, everyone has a voice. We may have to resort to social media, private pod casts (like the Shaun Newman podcast that I’ll be on Feb 05 in Kitscoty), or the small local papers to be able to speak openly with one another and share ideas, but it is a small price to pay to keep the dream of our country alive.

POLITICAL DISAPPOINTMENT

Submitted by Mark Harvey

When an individual is hired for a job, isn't the primary attribute their ability to do the job as required? Their personal life and beliefs may come into casual conversation at some point; however, those items are seldom among the criteria for the chosen position.

While reading the article in the local papers, my views of the man have diminished yet again. Many of the topics that an MLA is supposed to represent are very worthwhile and the time and energy spent is commendable. However, when personal views on COVID are introduced, I take offense. A politician, is supposed to be unbiased while

representing their respective constituents.

The role of Legislator involves understanding the spirit of existing laws, planning new laws, and studying, discussing and then supporting or opposing the enactment of new laws. As a Representative of their constituency, a Member may voice concerns on behalf

of constituents, represent viewpoints or intercede and assist in problem solving. An MLA is also a Member of an elected party caucus. In this function, they may be involved in planning and orchestrating strategy in the House, supporting the caucus and its decisions, and developing expertise in given subject areas. Depending on their party's political fortunes, the MLA may serve as a Cabinet Minister or Opposition Critic.

Whether you are totally vaccinated with two or more shots or not at all, is irrelevant. I, personally, know several who don't believe in being vaccinated, for several reasons. It could be due to freedom of choice, religious beliefs, or numerous other reasons. I also know of some who have been totally vaccinated and have become ill. The decision to vaccinate or not is a personal decision and any attempt to change their thought process is futile. We all have heard the stories, from both sides of the discussion, and, frankly, many of us are sick and tired of the topic.

The elected officials are duly chosen during a Democratic vote by the people. The responsibility is to represent the general interests of their constituents in a fashion of respect and dignity. The voting process offers choices for party platforms, perceived economic direction and personal representation. Unfortunately, some times people vote for a party out of like or dislike of their history, leadership or, in some cases, just tradition. Far too often candidates become elected only on the basis of party popularity.

For a community leader, MLA, to be spouting his personal views is, in my opinion, totally unprofessional.

PREDATOR CONTROL WORKSHOP FOR LIVESTOCK PRODUCERS

Submitted by Yellowhead County

Livestock predation is an ongoing problem for agricultural producers in Alberta - with coyotes, wolves, bear and cougar, depending on the area.

This one-day workshop provides training to livestock producers to help mitigate problems from predation. The workshop takes place at the Peers Multiplex on February 26, 2022, from

9am to 5pm. The cost per person is \$20 to register and lunch is provided. The workshop is hosted by Yellowhead County in partnership with the Alberta Trappers Association.

Participants will learn:

- How to create an unfriendly environment for large predators and an understanding of the biology of wolves and coyotes.
- Capture methods, both lethal and live capture.
- Safe handling of equip-

ment and legal requirements.

- The use of "properly made neck snares" and how to set them where legally permitted. Also, why many people have very poor success. What works and what doesn't, so that you're not wasting your time.

- Traps that are safe for pets where legal.

- A hands-on field portion is included in this workshop.

- A program set up by the

Trappers association to link livestock producers with trappers that have been properly trained to deal with coyotes and wolves.

The object of this program is not only to provide training, but also to get livestock producers working together with the Alberta Trappers Association to create a cooperative approach for predator control.

GOOD NEWS STORY - FAMILY LITERACY DAY

- Priority 3:
Community Engagement

Submitted by GYPSPD

Family Literacy Day takes place every January 27th to raise awareness about the importance of reading and engaging in other literacy-related activities as a family. Since 1999, thousands of schools, libraries, literacy organizations and other community groups have taken part in the initiative. ABC creates free learning and promotional

resources for anyone that wants to get involved. Taking time every day to read or do a learning activity with children is crucial to a child's development, improving a child's literacy skills dramatically, and can help a parent improve their skills as well.

Family Literacy in Canada Children spend five times as much time outside the classroom as they do in school, so parents and caregivers need the tools to support their learning (The Read-Aloud Handbook, Jim Trelease, 2006).

Children whose parents are involved with them in family literacy activities score 10 points higher on standardized reading tests (The Effect of Family Literacy Interventions On Children's Acquisition of Reading: From Kindergarten to Grade 3, Conducted by Monique Sénéchal for the National Center for Family Literacy, 2006)

One year of parental education has a bigger positive impact on whether a son or daughter will attend a post-secondary institution than an extra \$50,000 in parental income (Higher Education Quality Council of Ontario, 2011)

A mother's reading skill is the greatest factor to affect her children's future academic success, outweighing other factors, like neighbourhood and family income (National Institute of Health, 2010).

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
