I once asked my grandfather how he'd lived so long.

He smiled and said; "I sprinkle a little gunpowder on my cereal every morning."

I always thought that was a little weird but he did live a long life and left a great legacy; a thriving career, loving wife, seven children, sixteen grandchildren, two great-grandchildren, and a massive hole in the crematorium wall.

Whitecourt Arrests Male Following Police Pursuit

...on Highway 43 and Highway 32 South. The adult male driver fled in the pickup truck, later determined to be stolen, when police attempted to affect an arrest. Due to the risk to public safety, a pursuit was initiated.

Whitecourt RCMP successfully deployed a tire deflation device, however the driver continued to drive the pickup truck through Rotary Park and onto pedestrian walking paths,

causing pedestrians to scatter out of the way.

The male driver eventually came to a stop in Rotary Park and was located passed out behind the steering wheel, where he was safely taken into custody.

Several charges are pending against a Whitecourt male who is awaiting a Judicial Interim Release Hearing, including:

- Assaulting a Peace Officer
- Flight from Peace

Officer (x2)

- Resisting Arrest
- Possession of Stolen Property over \$ 5,000 (x2)

LAC STE. ANNE COUNTY
OFFICE OF THE REEVE

REEVE'S REPORT ON THE UPCOMING PAPAL VISIT AND PILGRIMAGE

The Lac Ste Anne Pilgrimage is a one-of-a-kind gathering that has drawn hundreds of thousands of visitors to our sacred lake each summer for the past 123 years.

With the presence of His Holiness Pope Francis, attendance at this year's event is certain to be on an entirely different scale. While this is a truly historic occurrence — both for the devout and the County at large — it does require focused and coordinated effort from multiple stakeholders. Here are some highlights on how things are taking shape.

STAKEHOLDERS AND RESPONSIBILITIES

To be clear: Council and Administration had no prior knowledge of the papal visit, nor the authority to say no to its occurrence. Further, an event of this magnitude takes about two years to properly plan (rather than the two months we were given). Regardless, the County is committed to making this event as safe and memorable as possible while minimizing any negative impacts on our communities.

To help achieve these outcomes, the County is part of a larger group that includes:

- Alberta Health Services and EMS
- Catholic Archdiocese of Edmonton
- Metis Association of Alberta
- Alberta Transportation
- Government of Alberta
- Provincial Office of the Papal Visit
- Alexis Nakota Sioux Nation
- Lac Ste. Anne Pilgrimage
- Royal Canadian Mounted Police

In addition to working closely with these organizations, the County has reached out to adjacent municipalities for their support with policing, signage, emergency services and logistics. I am grateful for their camaraderie and willingness to help.

PILGRIMAGE AND PAPAL VISIT SCHEDULE

The Lac Ste. Anne Pilgrimage is scheduled to place July 26-29. Pope Francis has been confirmed to attend the Lac Ste. Anne Pilgrimage for one hour on July 26 after hosting an open-air mass at Edmonton's Commonwealth Stadium that same day.

Further updates on the Pope's pilgrimage visit, free tickets to attend the stadium event, volunteer opportunities and other details can be found at papalvisit.ca.

ROUTES, TRAFFIC AND ROAD CLOSURES

The County is primarily taking direction from Alberta Transportation and the RCMP regarding approved routes for traffic, park-and-rides to the pilgrimage site, road closures and other logistical details.

Residents should factor in considerable traffic congestion on provincial highways and County roadways before, during and after the pilgrimage. It goes without saying that pedestrian traffic will be unusually high at the pilgrimage site and in surrounding communities. Throughout this timeframe the County will prioritize public safety, and will work to mitigate any harm to property or our environment.

For anyone planning to circumvent traffic via back roads or summer villages: **this will not happen**. There will be no access to the pilgrimage grounds via Val Quentin, Sunset Point, Alberta Beach or any other non-approved route. These roadways will be reserved for local traffic only.

MAPS, SCHEDULES AND UPDATES

The County has created a dedicated information page at [LSAC.ca/pilgrimage](https://lsac.ca/pilgrimage). Here you'll find approved routes, road closures, boat launch closures, bus shuttle schedules and other important event details. Most of this information will be County-generated, but we will also share any relevant information provided by other stakeholders.

To find out what's taking place in other communities, I encourage you to contact the administration offices of Alberta Beach, Sunset Point, West Cove and Val Quentin — or visit their respective websites.

FINAL THOUGHTS

Lac Ste. Anne County and its neighbouring municipalities recognize the importance of reconciliation. The wisdom, tradition and pride of Indigenous communities are woven into the social fabric of our communities, adding to the rich history of the Lac Ste. Anne region. Because of these influences, we are keenly aware of the importance of this visit. We understand what it means to our communities going forward, and the legacy it will leave behind.

Speaking on behalf of Lac Ste. Anne County Council and Administration as well as neighbouring municipal leaders, I sincerely thank local families and business owners in advance for their patience and understanding during this important — yet impactful — historic spiritual gathering. I also want to commend all staff involved for going above and beyond to provide for the safety and security of visitors and community members alike.

Sincerely,

Joe Blakeman
Reeve, Lac Ste. Anne County

SUPPORTING THE PAPAL VISIT TO ALBERTA

Submitted by Government of Alberta

The Government of Alberta is providing support for Pope Francis' visit to Alberta July 24-27.

Pope Francis will arrive in Edmonton on July 24 and take part in events in Edmonton, Maskwacis and Lac Ste. Anne.

The Government of Alberta supports the papal visit and all efforts on the journey toward truth and reconciliation. The government is providing logistical support and is working with partners to ensure the visit is successful.

While the government is working to minimize dis-

ruptions for travellers on Alberta highways along the papal motorcade routes, motorists can expect delays due to rolling road closures and should use alternate routes where possible. Delays can also be expected on area highways due to increased traffic generated by the events.

Road closures

July 24 – Pope Francis arrives

- The public should expect highway closures and limited access to the Queen Elizabeth II (QEII) Highway when the Pope travels from the Edmonton International Airport to his destination in Edmonton.

July 25 – Maskwacis

- Restricted access to the QEII Highway and Highways 611 and 2A should be expected in the vicinity of Ponoka, Maskwacis and Wetaskiwin.

July 26 – Lac Ste. Anne pilgrimage

- Expect highway closures and limited access along Highways 16, 43 and 633 when the Pope travels between Edmonton and Lac Ste. Anne.

July 27 – Pope Francis departs

- Expect highway closures and limited access to the QEII Highway when the Pope travels from Edmonton to the Edmonton International Airport.

Quick facts

- More than 120,000 visitors are expected to attend the papal events:

- o 15,000 at Maskwacis

- o 775 at Sacred Heart Church in Edmonton

- o 80,000 at Commonwealth Stadium in Edmonton

- o 25,000 at Lac Ste. Anne

Reconciliation is a priority for Alberta's government. As partners in reconciliation, we are listening to and working with Indigenous Peoples in Alberta to determine the best ways forward to a better future.

GOLFER'S GUIDE

DON'T LET GOLFING PAIN BE PAR FOR THE COURSE

A little know-how can help golfers avoid unnecessary injury. Considering the number of times a swing is repeated during a game, it's not surprising that the season often ends early for those who are not physically prepared.

Below are a few simple stretching techniques that can help prevent or reduce the impact of injuries:

Side bending stretch

1. Stand with feet shoulder-width apart.
2. Hold the golf club above your head with your arms straight.
3. Slowly bend to one side, without rotating, until you feel a stretch in the side of your back.
4. Hold for 15 seconds and repeat twice for each side.

Shoulder stretch

1. Hold the shaft of a golf club vertically behind your back.
2. Gently pull the club up with your top hand until you feel a slight stretch in the shoulder of your lower arm. Hold for 15 seconds.
3. Gently pull the club down with your bottom

hand until you feel a stretch in the top shoulder and arm.

4. Hold for 15 seconds.

5. Reverse hand positions and repeat.

WHAT MATTERS TO YOU

Submitted by MLA Shane Geston

I am writing this note at 30,00 feet, travelling along at roughly 500 miles per hour. Yes, I'm using the correct units of measurement, because technically I am still in the USA. I was recently appointed (because I asked loudly enough) to attend the Mid-West Legislatures Conference in Wichita, Kansas. I am sure glad that I did because I met some very incredible people and learned a ton about our neighbors not only to the south, but in Saskatchewan and Manitoba as well. It is evident that the concept of economic corridors, as well as 'North America First' makes not only economic sense, but it is literally in all our best interest regarding security.

There were some attendees that were obviously from opposite ends of the political spectrum, but in this context, at the convention, I was absolutely impressed how most of the participants parked the "Company Lines" at the door and really listened to one another. Delegates from the Detroit area were very excited about turning the Motor City around when it comes to manufacturing. They were extremely surprised to know how much energy we provide them, and just as protective of keeping the lines that supply energy not only open to them but growing as well. They were astounded by the amount of potash that Saskatchewan had, and as well as how much lithium that both our provinces could provide. They invited us to meet with their Governor to discuss further and wanted to come and see for themselves why I was so proud of our oilsands production. They were ex-

tremely interested in the transition approach to technology and energy within our hydrogen programs. These were Democrat Representatives and Senators.

The problem with being Canadian is we have become 'Can't Nadians' over the years and have not shown up to the dance. We then sit on the sidelines and wonder why others are not excited to take us to the prom as it were. We need to be engaged, we need to tell our story ourselves, and no matter how hard working our bureaucrats are that attend these events on our behalf, they simply do not carry the same weight as our locally elected officials in these rooms or across these discussions. Alberta needs to attend these events, and we need to make sure we get folks up to our province, in conjunction with Saskatchewan and Manitoba to really show what the Northwest can do for the strategies that supply and protect North America.

The Midwest and the prairie provinces have the same or similar challenges when it comes to providing the supports required to ensure that the less populated parts of our country remain viable. We heard about the challenges, but more importantly about the successes not only on the economy, but in the quality of life. We need rural just as much as we need the big cities. We heard about the logistic challenges, transition fuels, electric vehicles, and all the other stretch targets. We also heard about the realistic expectations, and engineering realities of trying to obtain them in the timeline given by some of the "Big Dream" policy makers. A balance of where we may want to head, with realisti-

cally how we would be able to get there is needed; this discussion is vital, and we sure as heck can not plunge headlong over a cliff based on wishful thinking.

We were complimented many times on the value that my fellow MLA and I brought to the discussion, both in the way we approached challenges and in the practical experience that we had.

I was told by one former cabinet minister that I was not the "typical" rep that Alberta sent, and he was very appreciative of that. He was encouraged that Alberta was sending people who really wanted to work in the best interest of the west and who had the experience to get the conversations heading in the right direction. I was rather flattered by that compliment, as I had been doing my utmost to pitch the concept of the economic corridors, and the Corridor Management Authority as being a Northwestern Canada nation building concept.

The former speaker of the house from Saskatchewan was my best advocate and connected me with the right folks at the conference, and they are just as excited as I am about getting out, seeing the sights and working the details, as opposed to just talking about it. In short, executing a plan to lay the foundations for advancement on the file, which will help with growth and prosperity for generations to come. 'Can- Nadians' through and through.

I had joked with a senator from Nebraska that after they played both of our national anthems that if they weren't careful a hockey game may break out, he laughed wholeheartedly. But when the "Canadian Contingent" was asked to

stand and be recognized by the host senator from Kansas because we had been very much missed over the last few years, he cheered like a long-lost brother. We were made not only to feel welcomed as visitors but welcomed home as family.

If we are going to capitalize on our relaunch however and ensure that we all think in the North American Context, we really must talk about not only freedom of movement of goods, but of services, and of our citizens. During our session on Canada-USA relations, we were addressed by a professor and a lawyer, who have performed work in this area, and have reviewed the issues as well as made recommendations. The Wilson Centre is a very well-respected organization, and literally has addressed the areas where governments and law makers got it wrong. I won't go into full details but basically, the medical community should not be the ones making the primary decisions or have that control over the borders, the movement of people, or some of the "we think its effective" restrictions.

The current federal travel protocols are not consistent, and they are out of touch with what is happening in the rest of the world and more importantly with our largest trading partner. I look forward to being home, but there is a definite contrast from the land of the free and the home of the brave, when compared to the federal government for the true north strong and free. We again need freedom of movement, freedom of choice, and for the remaining vaccine mandates, mask protocols, and restriction of work to be a thing of the past.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
