JOKE of the week

All the passengers are seated on a plane out on the tarmac and the stewardess announces "we're just waiting for the pilots." The passengers look out the window and see two men, dressed as pilots walking towards the plane. Both men are using guide dogs and appear to be blind. There are murmurs among the passengers, and some believe it is a joke. The men board the plane and go into the cockpit. More concerned murmurs and uneasy chuckles from the passengers. The plane taxis normally to the runway and begins its takeoff. As passengers look out the window they realize they are nearing the end of the runway. The entire passenger cabin begins screaming but the plane lifts off just before the end of the runway. The passengers calm down and chuckle to themselves. In the cockpit, the pilot turns to his copilot and says "you know, one day those people are gonna scream too late and we're all gonna die!"

A PROVINCIAL EXAMPLE, A FEDERAL NECESSITY

Submitted by MP Gerald Soroka

The 2021 tragedy in Hinton, where we lost 16-month-old Noah McConnell and his mother, Mchale Busch, has left a deep scar on our community. This horrific event not only brought grief but also a pressing call for tangible measures to prevent such occurrences in the future. It was in this context that I came across an OP-ED by the MLA for Camrose, Jackie Lovely, detailing Alberta's legislative response to cases like Noah and Mchale's.

In response to the loss suffered in Hinton and similar cases, Alberta's government has introduced significant legislative changes, aimed at tightening the

reins on violent and sexual offenders. The new measures include a provincial ankle bracelet monitoring program, targeting repeat violent and sexual offenders, as well as individuals on bail who pose a clear risk to public safety. These steps are a decisive move towards enhancing the security and wellbeing of our communities.

While Alberta has taken commendable steps, it highlights a glaring gap at the federal level. My Private Member's Bill, C-336, known as Noah's Law, seeks to address this gap by intensifying the monitoring of highly-likely-to-repeat sex offenders. Noah's Law would extend reporting obligations to 30 years for highly-likely-to-repeat sex

offenders and mandate completion of a rehabilitation program before any easing of reporting requirements can be considered. Additionally, it proposes stricter requirements for offenders to report any change of address and makes failing to report a criminal offense.

The actions taken by Alberta in response to these types of tragedies serves as both a blueprint and a call to action. It is imperative now more than ever for the federal Liberal government to follow suit. We have the responsibility and the means to ensure that the lessons learned from past tragedies translate into stronger protective measures nationwide. Let us honour the memories of those we've

lost by ensuring a safer future for all Canadians.

RECENT WILDFIRE ALERT

A Success Story in Emergency Management

It's been a dry and windy Spring, and the risk of wildfire is high! These facts were brought into sharp focus during the recent wildfire event near Bilby Common subdivision east of Onoway.

Bilby Common is home to roughly 100 residents, with a populated surrounding rural area including other subdivisions.

PROACTIVE & PREPARED – We were ready for the call.

The County started preparing in February for Wildfire Season. This year we planned for an early start to the season. We've hosted FireSmart™ Training Sessions in communities throughout the region, amped up our Firefighter, Emergency Social Services, and Emergency Management training.

The County learned from experiences here at home and throughout the province last year, and LSACFS is ready to protect our local communities.

LSACFS Chief Randy Schroeder noted:

Staff have taken part in extra training to refresh and enhance wildfire capabilities and expertise. In addition to this we've introduced a state-of-the-art drone into the service and numerous other equipment upgrades.

County Reeve Joe Blakeman added:

Wildfires are a threat to homes, businesses, precious habitats, and lands. As part of our work to prevent and tackle wildfires, we've been spreading the word with partners, and encouraging everyone in our communities to take steps to reduce the risk of wildfires.

COOPERATION & CONSIDERATION – County residents demonstrated utmost concern and respect.

This success story would not have been possible without the dedicated efforts of our residents. From the quick thinking calls to 9-1-1, and respecting roadblocks and detours, to patience and understanding awaiting updates as the events unfolded.

Lac Ste. Anne County Council, Administration, Staff and Fire Services credit residents and community members for their gracious support.

CALL FOR COLLECTIVE ACTION – We've all got to do our part.

- Download the apps! AB Emergency Alert app, AB Fire Bans app, AB Wildfire Status app.
- For a more local approach visit [LSAC.ca](https://www.lacsteanne.ca) for updates, and sign up for the community alert system at [CountyConnect.ca](https://www.countyconnect.ca).
- Pack a preparedness (go) bag: include clothing, medications and important documents
- Properly dispose of cigarette butts.
- Use extreme caution when lawn mowing, grading driveways, using chainsaws, operating ATV/OHV's, welding, grinding, and conducting any operation that may cause sparks or contact with hot objects and fine, dry grassy fuel types.
- Be aware of any potential risks of fire ignition.
- Consider the CURRENT RESTRICTION of burnable materials at County Transfer Stations.

We know that you have been doing your part to conduct spring cleanup and Fire Smart activities. Unfortunately, due to the high volume of materials, combined with the ongoing FIRE BAN which bans even County burning, and limited space at the County Transfer Stations, we ask that you to take your burnable materials to the **Main Landfill – Highway 43 Waste Commission** located at 55528 Rge Rd 35. Just south of Hwy 43, just east of the Nakota Crossing PetroCanada™.

ANNUAL ONOWAY CHILDREN'S HEALTH AND WELLNESS FAIR

Submitted by Onoway Children's Health and Wellness

The Onoway Children's Health and Wellness Fair has come and gone. The Annual fair was geared to providing information on health services and resources that support wellness of families in Onoway and the surrounding area. It was a place for community agencies, service providers, and local businesses to collaborate with families, and build connections for the future. The fair was held on March 8, 2024. Admission was free, with a suggestion of a donation to the Lac Ste Anne East Food Bank. This resulted in generous food donations as well as monetary donations! The Onoway Heritage Centre gym was filled with over 28 vendor tables. Attendees were greeted at the door by one of our 14 youth volunteers, handing out a swag bag which included items from our generous vendors, local businesses, and a coupon for a book. Each child received an age-appropriate book that they picked out themselves. As well, each family chose a family game along with a pair of sunglasses for each family

member to take home. Each participant entered the draw for one of the 33 door prizes.

Elder Eugene Alexis opened the fair with the Land Acknowledgement, prayer, and a song.

The day was packed with various activities, which included entertainment on the stage by Curt Young, an Indigenous singer, songwriter, and storyteller. Fairgoers were entertained by Fizzban Wizard, a magician comedian, who performed amazing bits of magic and kids' comedy. Camp Nakamun kept the children busy with a large Zenga game and Connect 4, which was well received. A new feature to our fair was The KID ZONE and BABY ZONE, an area outside of the gym where families could enjoy letting off steam with navigating an obstacle course provided by CC Fitness. AHS Early Childhood Intervention, Onoway Play-school and Out of School Care, and Onoway Public Library each provided developmental craft activities. The library also provided an Interactive Happiness Program which involved bubbles. Our youth volunteers had a never-ending lineup at their sparkle tattoos and

face painting tables. Families visited various vendor tables using a Treasure map, which went into a draw for door prizes when completed. Healthy snack was provided and handed out by our youth volunteers. Onoway Elementary School Parent Council offered a hot lunch fundraiser consisting of pasta, veggies and dip. AHS Indigenous Health Liaison, Leisa Belcourt and AHS North Zone Indigenous Senior Advisor, Colleen Jobin made and handed out amazing Bannock for the fairgoers. What a Treat!

North West Fire Rescue had the firetrucks onsite with information and tours of the trucks along with an information table set up in the gym. Lac Ste Anne County Peace Officers had a table where they offered information and car seat inspections outside if the public requested it.

This fair would not have been possible without the ongoing and generous support of our sponsors, Lac Ste Anne County Family and Community Support Services (FCSS), Onoway FCSS, Ste. Anne Natural Gas Co-op Community Enhancement Foundation (SANG), and Alberta Health

Services (AHS).

A BIG Thank You to our Amazing Youth volunteers, and the following Community Businesses; The Table, XL Graphics, Onoway Big-way, Burger Baron, EQUUS, Water Pure and Simple, Onoway Historical Guild and Museum, Onoway Public Library, Rocky Mountain Equipment Westlock, Shane Getson MLA, Grande Tire, Onoway Timbermart, My Place of Beauty, Woodhaven Cabinets, Tinkers Dam, and Lac Ste. Anne County (swag bags) for their ongoing contributions to make this successful. A big SHOUT OUT to Rocky at Onoway Burger Baron for providing gift certificates to our Youth Volunteers.

The fair may be over for this year; however, the planning committee has begun the process of planning next year's Annual Children's Health Fair. If you or your business would like to be a sponsor, or contribute to this very worthwhile endeavor, you can reach out to us at onoway-healthandwellnessfair@gmail.com or 780-967-4440.

TOP 5 RENOVATION TIPS TO CREATE MORE SPACE IN YOUR HOME

As real estate prices continue to climb, the cost to trade up to a larger home is on the upswing across the country, especially as markets remain hampered by tight inventory levels. As a result, more and more Americans are choosing to renovate their current homes instead of relocating. In fact, some forecasts predict that 2015 renovation spending could exceed the record of \$324 billion set during the peak of last decade's housing boom. While the hunt

for more square footage can be challenging, homeowners shouldn't feel like a costly second story or complete addition are the only options.

Here are five great ways to create or optimize space in your existing home.

1. Finish an unfinished basement. A basement renovation can hold limitless potential and increase the resale value or income potential of your home. Think about the possibilities: a home theater, office, spare bedroom,

basement apartment or recreation room. The key to doing it successfully is to focus on what's behind the walls, especially since moisture is a common issue in basements. Choosing the right insulation is critical. Look for products that are vapor permeable, dimensionally stable and mold and moisture resistant. Many contractors use Roxul Comfortboard IS semi-rigid sheathing board paired with Comfortbatt batt insulation to combat thermal bridging

and protect against mold and mildew growth. An added benefit of this type of mineral wool insulation is that it's also fire-resistant to 2,150 F. For interior walls and ceilings, Safe 'n' Sound insulation is ideal because of its ability to absorb noise and indoor traffic sounds, ensuring your newfound space is a peaceful one.

2. Create a more open-concept feel with light and color. If your home wasn't blessed

Continued from Page 9

with towering windows, installing French doors and pot lights can encourage light to travel more freely, creating the illusion of space. Likewise, choosing a paint color for walls, trim and moldings that is lighter and cooler in tone (think soft grays or blues) will help to reflect light and give the room a more open feel.

3. Remove non-load-bearing walls. Homeowners have the opportunity to rethink the layout of

their home by removing non-load-bearing walls. Removing structurally unnecessary walls can make your whole home feel larger, improve flow, lighting and the function of your home.

4. Convert your garage into usable living or work space. For many homeowners, the garage becomes an overflow room for storage -- and is often a walk-in headache. Convert your garage (or a portion of it) into another living space, guest

bedroom or home office. Install carpet and quality thermal insulation such as Roxul Comfortbatt to block outdoor noise and keep in warmth.

5. Choose furniture and accessories carefully. Adopt a minimalist's eye. Begin looking around your home for furniture or accessories that overwhelm the space. Interior designers recommend choosing low-profile or small-scale furniture for rooms with less square footage. Dual-purpose

items, such as ottomans with storage chests inside, are a budget-friendly way to save on space while staying organized.

THE PROBLEM WITH HARD WATER

Hard water can cause scaling, deposits inside of pipes, reduced cleaning ability, and several other problems.

Home ownership opens people's eyes to many new experiences, even requiring homeowners to familiarize themselves with certain things they never encountered as renters. Homeowners become novice plumbers, electricians, horticulturists, and even chemists as they wade through the projects and repairs involved with owning a home.

Outside of high school chemistry class, you may never have given thought to water composition and how it changes. However, once you become a homeowner, you may have to pay special attention to the type of water bubbling out of your faucets. Hard water is a common concern, and it can affect appliances and other parts of the home.

What is hard water?

Hard water affects about 85 percent of the United States, according to the Water Quality Association. Although not harmful to

human health, hard water can impact one's daily life in other ways.

Hard water is formed when water moves through soil and rock. It dissolves very small amounts of minerals and holds them in a solution. Calcium and magnesium are the most common minerals to turn water "hard." The more magnesium and calcium water dissolves, the harder it becomes.

From nuisance to damaging

Hard water can not only be a minor headache, but

also something more serious. Hard water can interfere with various cleaning tasks and also personal grooming. Clothes washed in hard water may not be fully clean and may appear dingy. Hard water can cause a film on surfaces, such as bath tiles and tubs. Some people find that their hair and skin can appear dull and sticky due to hard water.

Hard water can have other effects, too. Over time, the water can deposit minerals on the inside of pipes,

The Problem With Hard Water

Continued from Page 11

reducing water flow. If these deposits grow thick, you may have a plumbing issue on your hands. Furthermore, mineral deposits can harm appliances, such as water heaters, washing machines and dishwashers. Eventually, hard water may render these appliances ineffective, and they will need to be replaced.

Treatment options

Considering hard water is such a common concern, a number of treatment options exist. The main types of water-softening systems

use either a packaged water softener or a mechanical water-softening unit.

Packaged water softeners are chemicals that bond with the calcium and magnesium ions in the water so that they cannot interfere with cleaning efficiency. These chemicals fall into two categories: precipitating and nonprecipitating. Precipitating softeners are borax and washing soda and can affect pH levels of water and make water cloudy. Nonprecipitating softeners use phosphates. Alkalinity won't be in-

creased, and usually there is no cloudiness or buildup. These products are typically added to laundry loads and the like and are not recommended for drinking water.

Mechanical water-softening systems are hooked up directly to the plumbing of the house. They are ion-exchange systems that will add salt to the water. Although it can be safe to drink, softened water may not be recommended for those who are on low-sodium diets.

Hard water is a prob-

lem many homeowners have to face. It can affect a home's appliances' performance and cleaning abilities. Water hardness can be managed, and it is best to consult with an expert water-softening system manufacturer about your options.

Spring HOME RENO GUIDE

MAKE THE MOST OF LIMITED SPACE

Downsizing with regard to living space is a trend that has long been associated with empty nesters and senior citizens. As children move out and start families of their own, many homeowners decide to downsize to less expensive, more manageable properties.

But downsizing is not just for seniors anymore. According to a 2017 survey from the popular real estate website Trulia, among homeowners currently living in homes

larger than 2,000 square feet, more would choose a smaller home than a larger one if they decided to move this year (60.6 percent to 39.4 percent).

Homeowners who decided to downsize or those who purchased a small property to begin with may need a few pointers to make the most of their limited space.

- Reconsider your furniture. Furniture can make rooms feel cozy, cramped or spacious. For homeowners with limited

space in their homes, furniture that also can be used as storage can save space without sacrificing comfort. For the bedroom, choose a storage bed if the quarters are cramped and it's difficult to find space for two dressers. Such beds also can be used to store bed linens if closet space is limited. Purchase storage ottomans and/or end tables with storage beneath to make living areas feel less cramped.

Make The Most Of Limited Space

Continued from Page 13

- Discard some items. Homeowners who are downsizing from large homes may need to part

with some of their furniture to make their transition to smaller homes go more smoothly. For example, homeowners may need to get by with just

one bedroom nightstand and may even need to replace their existing nightstands with something more compact. Discarding living room end tables and

downsizing to a smaller coffee table also can help homeowners make smaller common areas more welcoming and less cluttered.

- Put paint to work. Paint is another way to make the most of a limited space. Painting certain pieces of furniture the same color as the wall can make the furniture blend in and feel less imposing. The result is a room that feels calm and open, even if there is less space to move around than homeowners might have grown accustomed to in their larger homes.

- Keep surfaces free of clutter. Surfaces such as dining tables, coffee tables and kitchen counters tend to accumulate clutter. While such clutter might not feel overwhelming in a large home, in small spaces crowded surfaces can make it feel as though the walls are closing in. Make an effort to keep surfaces free of clutter, resolving to discard or put items away each night before going to bed.

Many people wish they could live in homes without as much square footage as their existing homes. For those who have downsized, there are many ways to make the most of less living space.

WHITCOURT RCMP ARRESTS PROLIFIC PROPERTY OFFENDERS

Submitted by Whitecourt RCMP

On April 11, 2024, Whitecourt RCMP were advised of a series of break-ins at a rural oilfield plant on Windfall Road. At the time of the call, RCMP was advised that the suspects were still on site with a rented transport truck. A multi-unit response, including Whitecourt RCMP General Duty and Roving Traffic Unit (RTU), attended the scene. Three offenders were located and arrested in the rented truck by Whitecourt RCMP RTU after they left the scene. The truck contained stolen materials from the plant.

Two other offenders fled the scene in a pickup truck, driving into the bush until the vehicle was no longer driveable and then fleeing on foot. RCMP set up a containment and got assistance from Alberta RCMP Police Dog Services (PDS) and Alberta Sheriffs' RAPID response. The suspects were not located at this time but stolen material was located in the box of the pickup.

On April 12, 2024, at approx-

imately 8 a.m., the two remaining suspects were spotted, which resulted in another multi-unit response. Alberta RCMP PDS were able to track and locate the suspects. A male suspect received minor injuries as a result, which were later treated.

As a result of the investigation, the following individuals were arrested, charged, and brought before a justice of the peace:

- Kyle Ferchuck-Schmutz (36), a resident of Edmonton, was charged with:

- o Possession of property obtained by crime over \$5000 (x2);

- o Possession of unstamped tobacco; and
- o Failure to comply with release order (x3).

- Kimberly Anderson (39), a resident of Edmonton, was charged with:

- o Possession of property obtained by crime over \$5000 (x2);

- o Possession of unstamped tobacco; and

- o Failure to comply

with release order (x4).

- Roger Loyie (55), a resident of Edmonton, was charged with:

- o Possession of property obtained by crime over \$5000 (x2);

- o Possession of unstamped tobacco; and

- o Possession of break-in instruments.

- Ashley Ormonde (37), a resident of Parkland County, Alta., was charged with:

- o Break and enter;

- o Possession of property obtained by crime over \$5000;

- o Trafficking in property obtained by crime; and

- o Laundering proceeds of crime.

- Cory Taylor (43), a resident of Parkland County, was charged with:

- o Break and enter;

- o Possession of property obtained by crime over \$5000;

- o Trafficking in property obtained by crime;

- o Laundering proceeds of crime;

- o Failure to stop; and

- o Obstruct police officer.

Ferchuck-Schmutz was remanded into custody, to appear at the Alberta Court of Justice in Stony Plain, Alta., on April 17, 2024. Anderson, Loyie, Ormonde and Taylor were released on conditions by the justice of the peace and are to appear at the Alberta Court of Justice in Whitecourt on May 14, 2024.

"We would like to thank the local industry for their assistance in this investigation and encourage them to call in all suspicious activity" stated Whitecourt RCMP Acting Detachment Commander Sgt. Matthew Clarke. "I would also like to take the opportunity to highlight the great work done by the various RCMP members and units, including RTU and PDS, as well as the ongoing partnership with the Alberta Sheriffs. We are your Alberta RCMP and will keep working hard in the name of all Albertans."

Message from the President

President's Message

A very wise person told me a long time ago that the secret to happiness was making someone else happy. One way to do that is by helping - and how fortunate we are to have benefactors like SANG! The Ste. Anne Gas Co-op has

consistently been a solid Legion supporter, and the April 19 dinner was a prime example. They also donated a range of door prizes for those attending the dinner.

Not only was the dinner sponsored by SANG, but they also sponsored the Veterans' Table! That night, Hank & Liliana Henry, Tony & Laura Nichols, Jeff & Sherry Hogg, and Keith Skinner shared stories there.

Each year, SANG also donates money to our branch to cover our Volunteer Award. Every time someone volunteers an hour toward our Legion, his/her name is recorded. Once a year, three names are drawn from the list and each winner receives \$500, of which \$300 is donated to a local charity of his/her choice.

Last year, 2,527 volunteer hours were recorded, but we know that many more hours were not included (e.g., the hours put in by executive members). That translates to 49 hours each week for every week of the year. We have developed a different system for tracking volunteers, so we expect next year the number will be substantially higher when many of those unrecorded hours are captured.

The three winning volunteers this year were Ira Austin, Donna Krezek, and Kevin Krezek. They all gratefully accepted their winnings and will let us know the charity of their choice.

We also had the usual raffle draw winners that evening. Neil Gorman won the free dinner, Donna Krezek won the meat draw (ribs), with Larry Villneff went home with \$117.50 from the 50/50 draw.

At the end of all draws, SANG rang the bell at the bar and bought a round for the house - a big thanks from all present to SANG for that.

On Sunday, April 21, six members attended the District 8 Rally in Leduc. Lots of Legion business was conducted, along with an election for the position of Deputy District Commander. Neil Gorman, a member of our branch, was DDC for the past two-year term but, regrettably, was unsuccessful in his bid for re-election. The new DDC is Tim Penny from St. Albert. Later, on behalf of the Stony Plain Legion, President Gord Morrison, donated a cheque of \$8,000 to the provincial Poppy Fund.

SUDOKU of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
