CAPITAL GAINS TAX

Submitted by MP Gerald Soroka

For nine years, Justin Trudeau has continually made life tougher for hard working Canadians.

Starting June 25:

- Capital gains inclusion rate increases from 50% to 66.67% for individuals earning more than \$250,000 in capital gains in a year;
- All capital gains generated through a corporation will be subject to the 66.67% inclusion rate, and
- Lifetime capital gains exemption for eligible property will increase from \$1,016,836 to \$1,250,000.

This is simply a job-kill-

ing tax on health care, homebuilding, small businesses, and farmers in order to pay for their uncontrolled inflationary spending.

Conservatives were the only party that voted against this Liberal capital gains tax hike. Why? Because the hike would only make our productivity, home building and doctor shortages worse. I ask, what other last-minute surprise tax hikes will this Liberal government bring forward? Who will pay for this tax? Firstly, people who have one-time sales or disposal of long-term assets, like a grandmother trying to give some of her farmland to her children

for homes. Secondly, 300,000 businesses, and indirectly, their workers will pay this tax hike.

Conservatives will make hard work pay again and incentivize production in Canada with a 'Bring it Home' tax cut that will:

- o Bring home production and paycheques, by making Canada the best place to invest, hire and make things.
- o Bring home fairness by reducing the share of taxes paid by the poor and middle class while cutting tax-funded corporate welfare and cracking down on overseas tax havens.
- o Cutting the paperwork and bureaucracy in

the tax system by at least 20%.

To fix what Justin Trudeau broke, Canada needs to overhaul the system to make taxes low, simple, and fair. Raising taxes to generate revenue is not the answer. This Liberal government needs to STOP its uncontrollable spending. Conservatives will not punish Canadians for their hard work but rather reward them for their success.

Alberta RCMP Officer Involved Shooting In Leduc

Continued from Page 7

In compliance with legislative requirements, the Director of Law Enforcement was immediately notified causing the deployment of ASIRT to conduct an independent investigation. The RCMP believes in accountability and transparency

and in so doing will provide full support to the ASIRT investigators and also conduct its own internal review.

Events like this are difficult for the communities in which they occur, as well as the general public and officers involved. Police recognize the trust placed in them to use force that is

necessary, proportional and reasonable and in so doing remain fully accountable. While this is not the outcome that we hope for, it is a situation for which officers are highly trained.

Independent of ASIRT's investigation, the RCMP's internal review process has been implemented to gather

a full account of what took place during this incident. RCMP training, policy, and police response. The RCMP is fully cooperating with ASIRT. All media inquiries about this incident should now be directed to ASIRT at 780-641-9099.

Submitted by Government of Alberta

Alberta's government is inviting public feedback on the development of a new strategic vision for recreation and conservation in Alberta's provincial parks.

Parks are for people and Alberta takes great pride in welcoming millions of visitors every year to come explore its provincial parks and enjoy the benefits they offer. Alberta's government will be conducting a two-phase public engagement process to gather feedback from Albertans, park visitors, Indigenous communities and community organizations to inform the development of a new Plan for Parks.

The Plan for Parks engagement provides an opportunity to hear from Albertans on topics such as understanding new and emerging trends in recreation and camping, ensuring environmental responsibility, advancing reconciliation and continuing to deliver great visitor experiences for current and future generations.

"Our parks provide truly spectacular outdoor experiences, and we need to make sure their unique beauty is preserved for our children

and our children's children. We want Albertans to share their vision with us, as we create a renewed and modern plan to bring Alberta's parks into the future."

Todd Loewen, Minister of Forestry and Parks

"More and more Albertans are using parks and public lands and the Friends of Kananaskis is excited by the Alberta government's commitment to engaging the public on creating and implementing a vision for the future of parks across the province. As a proud

partner of the Alberta government for the past 28 years, we look forward to continuing to promote the recreational use and sustainability of our parks and public lands."

Trevor Julian, executive director, Friends of Kananaskis

"We are excited to contribute our perspective on supporting the growth of tourism and outdoor recreation in the province to meet visitor demand and enhance opportunities and connecting with the beautiful landscapes Alberta has to offer."

Gerry Haracsi, executive vice president, Recreation Vehicle

Dealers Association of Alberta

As more visitors explore Alberta's provincial parks, creating more recreation opportunities will be a top priority of the new plan. This updated vision will help Albertans to enjoy the great outdoors by creating additional campsites and improving access to activities like kayaking and canoeing.

"As Albertans, we love our provincial parks. The public engagement process will allow visitors and users a valuable opportunity to share their thoughts, ideas, and opinions on shaping the direction of Alberta Parks."

Tyler Dixon, Alberta Parks Ambassador

Public engagement will begin June 19 and run for 60 days. Albertans are invited to share their thoughts on an updated vision, guiding principles and options for the future of parks. Feedback will be collected through an online survey.

All feedback will be collected, analyzed and used to create a new draft plan. This draft will be shared with Albertans publicly to ensure that it reflects the diverse input received. This will support making any required changes to the plan before it is finalized.

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
