## Whitecourt RCMP Seek Public Assistance In Location Of Missing Male

*Continued from Page 1*

reported missing by family after an extended period of not communicating with them.

Vanda traveled back and forth from Edmonton and Whitecourt, and was in Whitecourt between July and Sept. of 2021, and bank transactions cease after Sept. 18, 2021, after a trans-

action in the area of Caxton Street in Whitecourt.

Whitecourt RCMP are concerned for Vanda's safety and well-being and is requesting any information about Vanda that any community members may have, to assist the investigation.

Vanda is described as:

- Now 34-years-old
- Approximately 5 foot 11 inches

•Approximately 130 pounds

- Slim build
- Medium complexion
- Black short hair
- Brown eyes

This investigation is still ongoing and RCMP would like to extend gratitude to community members for their assistance thus far.

## County-Wide Road Ban Notice

*Continued from Page 2*

Managing and Mitigating Infrastructure Strain

Lac Ste. Anne County is responsible for the preservation and maintenance of all municipal roads, high-

ways and bridges under the direction, control and management of the County. A very important part of this responsibility is the protection of roadways during the spring thaw. This time of year can create serious

structural damage to roads and bridges if appropriate measures are not taken.

When a road ban occurs, signs indicating the allowed axle percentages are posted on all oiled and paved roadways. Road ban signage is

not posted on gravel roads; however, all roads will be monitored and road bans enforced by Lac Ste. Anne County Enforcement Services to ensure compliance.

## CHERRILL 4-H MULTI CLUB

Submitted by Bailey Jack

January news.

Hello! This is Bailey jack from the Cherhill 4 H Multi Club with the January report!

The club held their annual Christmas party on January 11th.

In January the beef kids did a feedlot tour at Meunier's feedlot for their workshop. They looked at feed samples and discussed how to feed animals and then went to look at a few pens of beef animals.

The sheep kids did a lambing workshop where they got a hands on chance to dock tails, give injections and tag. .

The quilting kids did more work on their quilts.

The foods kids made cupcakes and homemade icing! It Sounds so yummy!

The vet science kids and the canine kids did a canine healthcare workshop with Dr. Tanya Knittig as the guest speaker. .

The archery kids worked on shooting and aiming.

The Feathered friends were unable to meet this month.

That's all for January!

# CONSTRUCTION BEGINS ON COMMUNITY RECREATION FACILITY

Submitted by Stony Plain

The Town of Stony Plain is excited to announce 2025 construction on the Community Recreation Facility is set to begin the week of March 24. While initial groundwork took place in 2024, major construction will begin in 2025. Residents can expect to see significant progress throughout the year, including the installation of the shell of the facility by the end of the construction season. Construction will continue into next year, and the facility is expected to open to the public in Q4 of 2026.

"This will be a very exciting construction season for the Community Recreation Facility," says Mayor William Choy. "The new facility will be a vital space for recreation, wellness, and connection. I'm looking forward to watching this space transform, and I can't wait to celebrate the opening with our residents in 2026."

The Community Recreation Facility will feature community spaces, a walking and running track, a turf field, two multi-purpose sport courts, pickleball courts, a six-sheet curling facility, and a concession. Designed with future

expansion in mind, the facility will be able to accommodate additional recreation and leisure phases in the years to come.

"Breaking ground was a significant moment in 2024, but now we're entering the exciting phase where this vision starts taking physical form," says General Manager of Community and Protective Services Karl Hill. "By the end of this construction season, residents will be able to see the physical building take shape, a visible reflection of the years of planning and work that have gone into making this project a reality."

To accommodate construction work, a section of Brickyard Drive, starting at the roundabout on 57 Avenue, will be temporarily closed between March 24 and April 5. Residents are encouraged to plan ahead and follow detour signage.

## THE BENEFITS OF ELECTRIC VEHICLES

Electric vehicles remain a curiosity for many motorists. While many industry experts predict all cars on the road will be electric models at some point in the future, gas-powered vehicles still outnumber electric cars by a wide margin.

Some drivers may be hesitant to purchase electric cars out of a fear of the unknown. That's understandable considering the cost of new vehicles, electric or gas-powered. According to analysts at Kelley Blue Book, the average transaction price for light vehicles in the United States was more than \$36,000 in early 2018. That makes vehicles a significant investment and perhaps explains why consumers have thus far

been hesitant to embrace electric cars en masse. But the benefits of electric cars are many, and understanding just what those benefits are might compel more drivers to make the leap.

Effects on local economies Many countries, including the United States, import a substantial percentage of the petroleum they consume. For example, the U.S. Department of Energy notes that the United States imports 19 percent of the petroleum it consumes, three-quarters of which is used for transportation. All-electric vehicles can be powered solely by domestically produced electricity, which can benefit local economies in countries such

as the United States and Canada.

### Cost savings

There's no denying that purchase prices for electric cars and even hybrid vehicles are higher than those for more conventional, gas-powered vehicles. However, many countries offer sizable tax credits to buyers of hybrid and electric vehicles. In addition, fuel costs for hybrid and plug-in electric vehicles are low, which can help offset the high purchase price of such automobiles.

### Environmental impact

The DOE notes that electric vehicles produce zero tailpipe emissions. The same goes for plug-in hybrid electric vehicles when they're op-

erating in all-electric mode. That's a substantial benefit, as tailpipe emissions pose a significant threat to the environment as well as human health. Common tailpipe emissions include carbon monoxide, nitrogen oxides, sulfur oxides, benzene, and carbon dioxide. Such pollutants can lead to further depletion of the ozone and some, such as benzene, are known carcinogens.

Electric vehicles have yet to catch on a wide scale. However, the overwhelming benefits of such cars and trucks makes it extremely likely that they are the future of driving for those motorists who have thus far been hesitant to ditch their gas-powered automobiles.

## ARMY CADET NEWS

Submitted by Captain Heinz, Commanding Officer

With the increased size of

our unit this year, the financial support 3053 RCACC has received is so much appreciated! These funds allow the unit to have the opportunity to do more exciting and fun activities.

This support was certainly helpful to allow our fundraising at the recent Sno-Mo Days be successful despite the frigid temperatures keeping the crowds

smaller than last year.

This list following is of all the recent organizations and businesses that have supported our corps this year to date:

Royal Canadian Legion Branch 132 Onoway, Lac Ste Anne County FCSS, Con-Tec Tire and Auto, Timber Wolf Investments, Up On Me Imports, P3 Capital, Landrex, Monica Barclay,

Big Way Onoway, Peaskie Minerals Inc, Energy Crane, Calahoo Meats and West Parkland Gas Co-op.

We appreciate everyone's support of 3053 (Lac Ste Anne) Royal Canadian Army Cadet Corps and the Cadet Parent Committee.

Thank you!

## NEW PARENT AND NEWBORN LINE LAUNCHES IN RURAL ALBERTA

Submitted by Primary Care Alberta

Today Primary Care Alberta (PCA) launched the New Parent and Newborn Line – a service that refers Health Link 811 callers in North, South and Central zones to registered nurses

specializing in postpartum care.

“Parents often have questions related to care for their newborn. The New Parent and Newborn Line provides expert postpartum information free of charge, to all parents in North, South and Central zones who have a

baby under two months of age,” says Patricia Chambers, Executive Lead of Patient Navigation and System Integration with PCA.

Nurses are available 24/7 to offer support, information and referrals to new parents and caregivers for the first two months after

their baby's birth. Albertans can reach the New Parent and Newborn line by calling 1-833-805-BABY (2229).

The new line complements the Healthy Beginnings and Early Start Parent Information lines already offered in the Calgary and

# New Parent And Newborn Line Launches In Rural Alberta

*Continued from Page 7*

Edmonton zones, completing universal provincial access for new parents with babies under two months of age.

All three lines answer questions including caring for baby, breastfeeding, mother's health, and baby's health.

"This is the newest line to be added to the vast suite of virtual health services offered by Primary Care Alberta through Health Link 811," says PCA CEO Kimberley Simmonds. "Offering virtual health services empowers Albertans to seek out their own appropriate care options without having to go

to the emergency department or their primary care provider, ensuring Albertans continue to receive the right care at the right place at the right time."

Primary Care Alberta is a made-in-Alberta solution to improve access to the primary care services Albertans rely on. By delivering coordinated

services, Primary Care Alberta allows for valued healthcare professionals to do what they do best: care for you. Together, we are creating a future where compassionate, timely and effective healthcare is available to every Albertan at every stage of life.

## STATEMENT: PREMIER DANIELLE SMITH'S MEETING WITH PRIME MINISTER MARK CARNEY

Submitted by Government of Alberta

Premier Danielle Smith issued the following statement following her meeting with Prime Minister Mark Carney:

"At his request, I met with Prime Minister Mark Carney today. We had a very frank discussion in which I made it clear that Albertans will no longer tolerate the way we've been treated by the federal Liberals over the past 10 years. I provided a specific list of demands the next Prime Minister, regardless of who that is, must address within the first six months of their term to avoid an unprecedented national unity crisis. This includes:

- Guaranteeing Alberta full access to unfettered oil and gas corridors to the north, east, and west
- Repealing Bill C-69 (aka. "no new pipelines act")

## PREPARE COOLING SYSTEMS FOR WARM WEATHER

One springtime task on homeowners' to-do lists is checking cooling systems to ensure they are ready for summer. Proper maintenance of

cooling systems is essential to saving energy and keeping utility costs down. Fortunately, homeowners need not be certified HVAC tech-

nicians to maintain their cooling units.

- Clean filters. Whether a home is kept cool by a whole-house central air conditioning system

or window units, clean filters are necessary to keep the units working efficiently. Routinely replacing or cleaning filters is one of the most important maintenance tasks to improve airflow and increase efficiency. The U.S. Office of Energy Efficiency & Renewable Energy says replacing a dirty, clogged filter with a clean one can lower an air conditioner's energy consumption by anywhere from 5 to 15 percent.

- Know the square footage. When replacing a cooling system, have an understanding of the size of your home (or room if installing an window unit). Determine the area of the home so you buy a unit that suits your needs. Air conditioners use BTUs (British Thermal Units) to define cooling power. The more BTUs, the larger the space that can be cooled. However, homeowners do not want to exceed the necessary cooling power. This leads to energy waste. EnergyStar.gov can help homeowners find the right cooling system for their needs.

- Inspect system coils. The evaporator and condenser coils on air conditioners can collect dirt, even when filters are maintained.

## Prepare Cooling Systems For Warm Weather

*Continued from Page 10*

Dirty coils are less efficient at absorbing heat, so periodically remove the dirt. Outdoor coils can be kept cleaner by cutting back foliage from the unit to allow better air flow.

- Inspect condensate drains. Energy.gov also suggests making sure condensate drains, which take moisture pulled from the air away, are functioning properly. If they're clogged, they may not be effective at reducing humidity in

a home, and they may even leak.

- Clear debris. Remove fallen leaves or other plant material from condenser units and fan blades. Obstructed components can cause the system to retain heat, compromising its ability to work effectively. Some homeowners prefer to cover their condensers at the end of the cooling season to keep leaves and dirt out of the unit.

- Check window unit seals. When installing window units, make sure

all seals around the air conditioner are in place to prevent cool-air loss.

- Hire a technician. Air conditioner technicians can be very helpful and will know how to prepare a system for hot weather. Technicians typically conduct multipoint inspections and measure such things as refrigerant levels and duct leakage. Airflow through the evaporator coil also may be checked. If a homeowner suspects the thermostat is not working properly, a techni-

cian can verify if that is true and even install a new one if necessary.

As summer approaches, homeowners should prepare their air conditioning units for the busy months ahead.

## STEPS TO A MORE ORGANIZED, FUNCTIONAL GARAGE

Organization can help homeowners transform their homes into less cramped, more spacious oases without forcing them to finance potentially expensive expansion projects.

Homeowners who park in their driveways may find that their garages have become crowded, cluttered spaces in which searching for tools can feel like scouring a haystack in search of a needle. Organizing a garage can create extra room in a home while affording homeowners the chance

to protect their vehicles from the elements. Homeowners who want to turn their garages into something more than cluttered storage units can employ the following strategies to transform these largely overlooked areas into more valuable spaces.

Choose the right day. Garages tend to be separate from the rest of the homes they're a part of, meaning the only way to organize a garage is to first remove all items from the garage and into the driveway. Because items

removed from the garage will be exposed to the elements, homeowners should choose a day that's temperate and sunny to clean their garages. If possible, homeowners should opt to organize their garages in late spring, summer or early fall when there are additional hours of daylight. This protects homeowners from having to work in the dark should the job take longer than they initially anticipated.

Discard or donate duplicate items. Duplicate items are some of the main culprits behind

cluttered garages. As garages gradually become more cluttered, homeowners may buy tools they already have simply because they cannot find their original tools. When organizing the garage, create separate piles for duplicate tools, placing still-useful items in a pile that can be donated to neighbors, local charities or organizations and another pile for old tools that are no longer useful.

Host a garage sale. Homeowners who want to

## Steps To A More Organized, Functional Garage

*Continued from Page 12*

organize their garages and make a buck at the same time can host garage sales. Make only those items that are still functional available for purchase, and let neighbors and bargain hunters do the bulk of your organization work for you.

- Designate areas of the garage for certain items. Once the items that won't be going back into the garage have been sold, donated or discarded, organize the garage by designating areas for certain items, making

sure to separate items that can pose safety risks. For example, store kids' bicycles and outdoor toys in a corner of the garage that is opposite the corner where potentially dangerous items such as power tools and gas cans will be stored. Keep the center of the garage open for vehicles.

- Periodically park cars in the garage. Homeowners who are comfortable parking their vehicles in their driveways can improve their chances of maintaining organized garages over the long

haul by periodically parking in the garage. Doing so not only prevents the gradual buildup of clutter that can slowly take over a garage, but also protects homeowners' automotive investments.

Maintaining an organized garage can help homeowners make more practical use of the space in their homes.

## COUNTY SUPPORTS STARS CRITICAL SERVICES

[LSAC.ca/news](https://lsac.ca/news)

Lac Ste. Anne County is proud to announce its commitment to supporting STARS (Shock Trauma Air Rescue Service) by contributing \$2 per capita in annual funding. This investment reflects the County's dedication to ensure rapid emergency medical transport remains available for residents and visitors in times of crisis.

Lac Ste. Anne County has been a supporting partner of STARS since 2008 and a Municipal Partner—donating \$1 per capita since 2018. This year's contribution will surpass the \$100,000 overall lifetime amount donated to this vital service by the County.

"Our Council believes that supporting STARS is one of the best investments we can make in community safety," commented County Reeve, Joe Blakeman. "This is about peace of mind for our residents, knowing that if the unthinkable happens, expert medical help is available."

For decades STARS, a non-profit air ambulance service, has provided emergency medical transportation across Alberta, Saskatchewan, and Manitoba.

With base locations in Grande Prairie, Edmonton, and Calgary, STARS has played a crucial role in Alberta's emergency response system, providing lifesaving medical care and swift transport to hospital for critically ill and injured patients. For rural and remote communities like ours, having access to this service is essential.

By investing in STARS, the County is taking a proactive approach to protecting its residents and reinforcing emergency preparedness.

## DISCRETIONARY DEVELOPMENT PERMITS

[LSAC.ca/permits](https://lsac.ca/permits)

The development permits below have been conditionally approved under the provisions of the Land Use Bylaw. This list does not include permitted uses. Please contact County Planning & Development to request additional information on permits listed.

Those who claim to be affected and wish to lodge an appeal against a discretionary development permit must do so in writing to the applicable appeal body prior to the deadline listed.

Anyone who claims to be affected and who wishes to lodge an appeal against any of these developments must do so in writing on the applicable form on or before 4:30 pm on the noted date(s) to the appropriate appeal body.

LAC STE. ANNE COUNTY

# ROAD BAN NOTICE

## Public Works

This Road Ban Notice applies to all Lac Ste. Anne County road surfaces, and supersedes the County's standing weight restrictions on certain chip seal coat roadways.

PURSUANT TO THE AUTHORITY granted under the provisions of Section 18(1) of the *Municipal Government Act*, the Vehicle Axle Weight Restrictions are effective Monday, March 24, 2025. This Road Ban will remain in place until early June 2025 or as determined by the County.

**The following allowable weight will be permitted on all local roads in Lac Ste Anne County:**

Description	Percentage-Axle Weights
All Gravel Surfaced	75%
Cold Mix Surfaced (unless otherwise posted)	75%
Hot Mix Surfaced	75%
Residential Subdivisions	75%
RR 33 from Twp 535 to Hwy 633	50%
RR 13 Hwy 37 North to Hwy 642	50%
Twp Rd 552 between Hwy 43 to RR40	50%
Twp Rd 544 from RR 11 to RR 21	50%
RR30 from Parkland County North	50%

This Notice shall remain in effect until further notice. If you require further information, please contact the Public Works department.

Dated March 24, 2025.

**Mike Primeau, MBA, CLGM**  
County Manager  
Lac Ste. Anne County

### Managing and Mitigating Infrastructure Strain

Lac Ste. Anne County is responsible for the preservation and maintenance of all municipal roads, highways and bridges within Lac Ste. Anne County which are under the direction, control and management of the County. A very important part of this responsibility is the protection of roadways during the spring thaw. This time of year can create serious structural damage to roads and bridges if appropriate measures are not taken.

When a road ban occurs, signs indicating the allowed axle percentages are posted on all oiled and paved roadways. Road ban signage is not posted on gravel roads; however, all roads will be monitored, and road bans will be enforced by Lac Ste. Anne County Enforcement Services to ensure compliance.

Box 219, Sangudo AB T0E 2A0

T 780.785.3411 TF 1.866.880.5722 F 780.785.2985 E [publicworks@LSAC.ca](mailto:publicworks@LSAC.ca)

# Statement: Premier Danielle Smith's Meeting With Prime Minister Mark Carney

*Continued from Page 8*

- Lifting the tanker ban off the B.C. coast
- Eliminating the oil and gas emissions cap, which is a production cap
- Scrapping the so-called Clean Electricity Regulations
- Ending the prohibition on single use plastics
- Abandoning the net-zero car mandate

- Returning oversight of the industrial carbon tax to the provinces

- Halting the federal censorship of energy companies

"I also made it clear that Alberta, as owner of the resource, will not accept an export tax or restriction of Alberta's oil and gas to the United States, and that our province is no longer agreeable to subsidizing

other large provinces who are fully capable of funding themselves. Lastly, I made it clear that federal mismanagement of Jasper and Banff national parks resulted in last year's tragic wildfire in Jasper and is endangering Banff, and the situation must be rectified immediately.

"With the federal election about to be called, I encourage all Albertans to

get involved in what is likely one of the most pivotal and important elections in our nation's history, and to support the party and candidates that have consistently advocated for freeing Alberta from federal overreach and the repeated economic attacks our province has faced from Ottawa over the past 10 years."

## SECURING THE ALBERTA-U.S. BORDER

Submitted by Government of Alberta

Alberta's border security plan is advancing rapidly with more measures in place to stop illegal activity at the Alberta-U.S. border.

In December 2024, Alberta's government announced a \$29-million investment to create an Interdiction Patrol Team (IPT) within the Alberta Sheriffs to crack down on illegal cross-border activities threatening lives and livelihoods on both sides of the Alberta-Montana border. Alberta's government recognizes the need for swift and decisive action that will curb drug trafficking and illegal border crossings to strengthen the province's border security.

The team's first cohort has been deployed and hiring will continue until all 51 positions are filled. The IPT is now operational, working closely with the RCMP and Canada Border Services Agency to identify and apprehend individuals suspected of

drug smuggling, human trafficking and other illegal activities involving movement across the Canada-U.S. border. To date, 20 members of the Alberta Sheriffs have been assigned to the IPT to patrol between entry points, and to vehicle inspection stations along Alberta's side of the border.

Sheriffs Interdiction Patrol Team map

"We are committed to strengthening security along Alberta's southern border to put an end to the dangerous criminal activities that are destroying lives on both sides of the border. In addition to launching our new Interdiction Patrol Team, we are building three new vehicle inspection stations and increasing highway monitoring for suspicious activity. Our plan will ensure that Alberta's southern border is secure."

Danielle Smith, Premier  
"Alberta's government is increasing border security and has zero tolerance for illegal activities that threaten the well-being

of Albertans or Alberta's economy. The Alberta Sheriffs Interdiction Patrol Team puts more boots on the ground to identify where and when these activities are taking place, boosting security along our southern border and disrupting dangerous cross-border human, drugs and weapons trafficking in both directions. Let this be a message to all potential traffickers, especially those who traffic deadly fentanyl, you will get caught and you will go to jail."

Mike Ellis, Minister of Public Safety and Emergency Services

Alberta's government continues to acquire equipment that will enable the IPT to detect and apprehend individuals committing illegal activity, including drones, night-vision optics and patrol canines. This team will patrol to detect and intercept illicit drugs, illegal firearms and unlawful attempts at illegal international border crossing. The IPT will be fully operational in coming months.

Through this process, Alberta has identified further significant concerns with the shared Canada-U.S. border. In response, Alberta's government is advancing further measures to increase the security of the southern border.

In addition to the IPT, Alberta Transportation and Economic Corridors is dedicating \$15 million over two years for three new vehicle inspection stations near the border, if Budget 2025 passes. This will give Sheriffs dedicated facilities to inspect commercial vehicles, whether they're crossing into the United States or coming into Canada. The stations will be located on Highway 1 at Dunmore, Highway 3 at Burmis and Highway 4 at Coutts. The stations will include enhanced parking lanes for inspections, and winter ready buildings for year-round inspections.

Another measure undertaken by Alberta's government is to train highway

*Continued on Page 17*

# Securing The Alberta-U.S. Border

*Continued from Page 16*

maintenance workers to identify and report suspicious activity during highway maintenance operations. Volker Stevin has a contract to maintain about 600 kilometres of highways in southern Alberta and by empowering their workers to identify and report suspicious activity, Alberta's government is layering further security measures without adding additional costs.

"Border security is a priority, and Alberta Transportation and Economic Corridors is doing its part to enhance security and surveillance through three new vehicle inspection stations and with the help of our highway

maintenance contractors, who will be trained to detect and report suspicious activity, providing an extra pair of eyes along the border."

Devin Dreesen, Minister of Transportation and Economic Corridors

"The Interdiction Patrol Team will play a key role in eradicating crimes that seek to exploit the Alberta-Montana border in both directions. The Alberta Sheriffs are pleased to collaborate with the RCMP, Canada Border Services Agency and our counterparts in the United States as we work to keep our shared border safe and secure."

Bob Andrews, chief, Alberta Sheriffs

Alberta's government

also amended the Critical Infrastructure Defence Regulation in January 2025 to add a two-kilometre-deep border zone north of the Alberta-United States border to the definition of essential infrastructure under the Critical Infrastructure Defence Act. The act gives peace officers the authority to arrest individuals caught trespassing on, interfering with or damaging essential infrastructure and who do not have a lawful right, to be on the essential infrastructure.

"Amending the Critical Infrastructure Defence Regulation is a key piece of our efforts to strengthen security in the area near the international border. We have quickly

taken action that will support law enforcement in improving public safety, and tackle cross-border crime, drugs, illegal migrants and human-trafficking."

Mickey Amery, Minister of Justice and Attorney General

## PLANNING A SPRING AUCTION?

Take Advantage of our 60 Years in the Auction Business, conducting Annual Machinery Consignment Auctions held 5 times per year for the past 45 years.
