transported to the hospital with non-life-threatening injuries. Investigation revealed that the collision was due to a "road rage" incident, resulting in the arrest of the driver of the other vehicle. No other individuals were involved in the incident. The highway was partially closed, resulting in slow moving traffic, while RCMP collision analysts attended and conducted their

investigation.

As a result of the investigation, Kevin Hornle (55), a resident of Drayton Valley, was charged with Dangerous operation causing bodily harm and Aggravated assault. He was brought before a justice of the peace and released on conditions. He is to appear before the Alberta Court of Justice in Drayton Valley on June 17, 2025.

"We would like to thank

the public for their cooperation while we conducted our investigation" said Sgt Dan Ferri, Operations NCO for the Drayton Valley RCMP. "This is a good time to remind the public to be courteous on the road and always drive safely."

JOKE of the week

"Dad, are bugs good to eat?" asked the boy.

"Let's not talk about such things at the dinner table, son," his father replied.

After dinner the father inquired,

"Now, son, what did you want to ask me?"

"Oh, nothing," the boy said.

"There was a bug in your soup, but now it's gone."

Urban Centre Redevelopment Plan Is Here To Guide Future Growth And Revitalization

Continued from Page 1

development, walkability, and a cohesive neighbourhood design while maintaining flexibility for future growth in the City of Leduc's Urban Centre. The UCRP is a milestone for the City of Leduc as the plan is the City's first area redevelopment plan.

The vision of the plan is to make the Urban Centre into an area that is accessible, safe, and inclusive with diverse housing, business opportunities, high-quality urban design, and transportation connection options.

"We're excited to move forward with this plan, which represents

years of collaboration, community input, and thoughtful planning for the Urban Centre area," says Bob Young, Mayor of City of Leduc. "The Urban Centre Redevelopment Plan will help unlock the area's potential while honouring its character and history—a thriving downtown is a reflection of the culture and wellbeing of a city."

The implementation plan that will guide revitalization outlines three phased, strategic, and sustainable priority levels for work to come:

- Tier 1 Foundational Actions: Lay the groundwork for downtown revitalization, focusing on major infra-

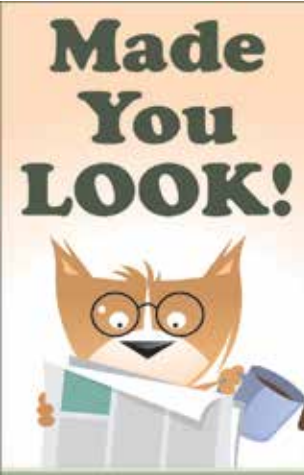

structure improvements, zoning updates, and business activation.

- Tier 2 Supportive Measures: Reinforce and expand upon Tier 1 by enhancing public spaces, exploring funding mechanisms, and preserving heritage.

- Tier 3 Enhancements and Long-term Growth: Ensure sustainability and long-term vibrancy by improving public spaces, environmental sustainability, and cultural programming.

Community feedback helped shape the plan over its two-year development through engagement sessions held during each phase of the

project.

\$707K LIGHTNING LOTTO WIN STRIKES IN ROCKY MOUNTAIN HOUSE!

Submitted by Western Canada Lottery Corporation

"It doesn't feel real!"

Candice MacDonald and Hughie MacKay won \$707,422.70 on the April 3

LIGHTNING LOTTO draw!

"I look at the win tracker all the time," MacKay said. "If the jackpot is big, I buy [a LIGHTNING LOTTO ticket] on the way to work and one on the way home!"

On this particular occasion, he saw the instant-win jackpot was sitting at just over \$700,000.

"I texted my partner and told her I was going to win the jackpot on the way home," he chuckled.

Little did he know, it would actually be true. A LIGHT-

NING LOTTO win struck for the Rocky Mountain House locals!

"I was like, 'No way, I won!'" he said. "The cashier didn't even notice right away!"

"I called Candice to tell her, and she didn't believe me, so I had to Facetime her to show her the ticket!" he continued.

MacKay and MacDonald are very excited about all the ways they could possibly spend the win and are already making plans.

"The top of the bucket list

is a trip to Nashville to see the Grand Ole Opry!" MacDonald said. "We're also going to go to Mexico together for the first time!"

MacKay added that his list also includes "a nice big engagement ring for Candice."

MacKay purchased the winning LIGHTNING LOTTO ticket from Rocky Husky at 4520 45 Street in Rocky Mountain House. They won their prize instantly on April 3 with the selection: 2, 10, 32, 48, and 49.

An independent body established
by the Legislative Assembly of Alberta

A new pilot program will help keep Albertans safe this summer by removing impaired boaters from lakes and rivers.

Operating a boat while under the influence of alcohol or drugs places everyone at risk and is one of the leading factors in recreational boating deaths in Alberta. To help tackle this issue, Alberta Fish and Wildlife Enforcement Services (FWES) has launched a pilot program this summer to enhance safety on lakes and rivers by targeting potential impaired boaters in key areas.

Between May 16 and Sept. 1, fish and wildlife officers will enhance their patrols on lakes and rivers in and around Spruce Grove, Wetaskiwin, Ponoka, Camrose and Red Deer with the ability to determine

Continued on Page 7

Tackling Impaired Boating On Alberta's Waterways

Continued from Page 6

the sobriety of boat operators by using Approved Screening Devices (ASDs) – commonly known as breathalyzers. If there is reasonable suspicion that the boat operator has consumed alcohol, fish and wildlife officers will administer breath tests. If the officer determines the operator is impaired, they will be arrested for further processing and could face criminal charges.

“Alberta families have a right to enjoy our beautiful summers safely. The pilot program we’ve announced today sends a clear message: impaired

boating has no place on Alberta’s waterways. Full stop. Operating a boat while impaired is just as dangerous and illegal as driving a car impaired. I want to commend our fish and wildlife officers for taking concrete steps to prevent accidents and keep Albertans safe.”

Mike Ellis, Minister of Public Safety and Emergency Services

This initiative supports the ongoing work and responsibilities of FWES to promote safety on Alberta’s waterways through education and enforcement. During routine patrols where fish and wildlife officers monitor for compliance with fish-

ing regulations, they will also check for valid boating licences and compliance with safety equipment requirements, monitor speed and wake zones, and educate Albertans on responsible boating practices.

“Fish and Wildlife Enforcement Services is committed to ensuring the safety of Albertans – both on land and on our waterways. This new pilot program provides officers with an essential tool to better detect those suspected of boating while impaired and enhances our ability to ensure a safe and enjoyable boating season for everyone.”

Rob Lamont, deputy chief, Alberta Fish and Wildlife Enforcement Services

SUPPORTING ALBERTA'S WILDFIRE EVACUEES

Submitted by Government of Alberta

Alberta's government provides emergency evacuation payments to assist those who have been forced from their homes for an extended period of time.

Emergency evacuations due to the threat of a wildfire or other natural disaster can cause incredible emotional and financial stress for those affected. To help ease the costs of evacuating and provide some peace of mind, Alberta's government provides emergency evacuation payments to assist those who have been forced from their homes for an extended period of time.

"Being forced from your home is one of the most difficult things a family can face. Our government is here to support Albertans every step of the way – helping cover urgent costs and providing reassurance during an incredibly stressful time. We're committed to ensuring families have the help they need, when they need it most."

Danielle Smith, Premier

Each adult resident of an affected community who has been evacuated for seven days or more is eligible to receive a one-time payment of \$1,250 and \$500 for each dependent child under the age of 18. These evacuation payments help pay for temporary accommodations, food and other necessities while evacuees are away from their homes. Most insurance policies will also provide coverage for additional living expenses if the insured are forced to leave due to a disaster.

"Whether flood or fire, evacuations due to natural disasters can be incredibly stressful. As always, our government is working hard to ensure help is there for those who need it and do everything we can to support Albertans through this wildfire season."

Jason Nixon, Minister of Seniors, Community and Social Services

Evacuees can apply for the payments online and will have

up to 60 days to apply following the start of an evacuation order for their respective community. Payments will be made by e-transfer within 24 hours of application, which is the fastest and most efficient way to receive these payments. Evacuees unable to apply online or receive e-transfer can call the Alberta Supports Contact Centre at 1-877-644-9992 for assistance and to make alternate payment arrangements.

"In the face of floods and fires, Alberta's government remains committed to providing essential support and resources to protect and assist Albertans during this wildfire season, ensuring that help is always within reach for those affected."

Mike Ellis, Deputy Premier and Minister of Public Safety and Emergency Services

For those who may need help with evacuating, Alberta's Income Support Emergency Contact Centre is available 24-7 to provide support. Vulnerable Albertans or those in acute fi-

nancial need who may need additional financial support for items such as food, clothing, transportation and temporary shelter as they leave their community should contact the Income Support Emergency Contact Centre at 1-866-644-5135.

"Wildfires are a reality of life in Alberta's forests, but no Albertan should have to face them alone. Our government is standing with affected communities every step of the way – supporting firefighting efforts on the ground, providing critical information and ensuring families have the support they need to get through these challenging times."

Todd Loewen, Minister of Forestry and Parks

The most up-to-date evacuation information is available at alberta.ca/emergency, Alberta Emergency Alert or by downloading the Alberta Emergency Alert mobile app, which immediately pushes all alerts out to subscribers.

May 16: Exposure time: Approx. 8:45 a.m. - 1 p.m. (MDT)

Anyone who attended this location at these times, who was born in or after 1970 and has less than two documented doses of measles-containing vaccine, may be at risk for developing measles. They should self-monitor for symptoms of measles and

are strongly encouraged to review their immunization records.

Measles is an extremely contagious disease and the virus spreads easily through the air. Symptoms of measles include:

- Fever of 38.3° C or higher; and
- Cough, runny nose and/or red eyes; and

•A rash that appears 3 to 7 days after fever starts, usually beginning behind the ears and on the face and spreading down to the body and then to the arms and legs. The rash appears red and blotchy on lighter skin colours. On darker skin colours, it can appear purple or darker than the skin around it, or it might be hard to see.

Complications of measles can include ear infections, pneumonia, inflammation of the brain, premature delivery, and rarely death. Persons who are pregnant, less than 5 years of age, or have weakened immune systems are at greatest

risk.

If symptoms of measles do develop, individuals are advised to stay home and call the measles hotline at 1-844-944-3434 before visiting any healthcare facility or provider, including a family physician clinic or pharmacy.

Measles vaccine is highly effective at preventing infection and complications. In Alberta, measles vaccine is offered, free of charge, through Alberta's publicly funded immunization program. The recommended schedule for measles vaccination is two doses, the first at one year of age and the second at 18 months.

If you think you have been exposed, and you are not protected against measles you may be able to receive immunization to reduce the risk of infection. A dose of vaccine needs to be given within 72 hours of exposure to prevent measles. Babies under 1 year of age, people with severely weakened immune systems, and those who are pregnant

may be able to receive immunoglobulin within 6 days of exposure to prevent disease. Call the measles hotline at 1-844-944-3434 for more information if these situations apply to you or your family.

Albertans uncertain of their immunization history, or their child's immunization history, can check eligibility and/or book an appointment by calling the measles hotline at 1-844-944-3434.

Individuals who are 14 years of age and older can check their My Health Record.

The measles hotline connects you to a professional who can assist with accessing your immunization records or offer general information; provide advice for those experiencing measles symptoms and are feeling unwell; and assist with booking measles immunization appointments or locating a public health clinic offering immunization in your area.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box.

ANSWER:
Last Weeks

You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
