### ALBERTA'S CERTIFIED WEED FREE FORAGE PROGRAM

Submitted by Yellowhead County

Hay you! Are you a producer of weed free forage in your county? Better yet, would you like to be?!

Yellowhead County, AB (May 28, 2025) - Invasive species such as terrestrial invasive plants are detrimental to Alberta's

environment and can cost an estimated \$2 billion each year. Contaminated hay is one means by which invasive plants are spread.

To address this, the North American Invasive Weed Management Association has set industry guidelines and maintains minimum standards for Certified

Weed Free products in Alberta, which are recognized across North America. As a participating county, we intend to promote this program to potential buyers and help producers certify and sell their Certified Weed Free Forage!

It's time to get your fields inspected!

## Alberta's Certified Weed Free Forage Program

*Continued from Page 1*

Here are some guidelines for forage producers that are interested in inspections to certify their forage as weed free:

- Be grain-ful there's certified inspectors to help! Inspections must be conducted by a Certified Weed Free Forage Inspector with authority under the Weed Control Act (e.g., Weed Inspectors) within 10 days maximum prior to cutting. If the crop is not cut within that timeline, a new inspection must be conducted.

- Inspectors may certify all or a portion of a field as weed free so it's not too much to handle.

- It's not the last straw if invasive species are present, a field can be certified as weed free if there are no propagative plant parts present.

- Now you can rest and hit the hay, the Alberta Invasive Species Council (AISC) will take care of the rest! They maintain a publicly available list of contact information for producers with inventory of Certified Weed Free Forage. This list is updated frequently and can be found on their website, [abinvasives.ca](http://abinvasives.ca). Please let us know if you would like to be added to that list.

Let's get this bale rolling and protect Alberta from the harmful impacts of

invasive species by letting others know about Alberta's Weed Free Forage program! For more information on how to get your field inspected, contact the Yellowhead County Agricultural Services Department at 780-325-3782 or 1-800-814-3935.

# JOKE of the week

After tucking their three-year-old child Sammy in for bed one night, his parents heard sobbing coming from his room. Rushing back in, they found him crying hysterically. He managed to tell them that he had swallowed a penny and he was sure he was going to die. No amount of talking was helping. His father, in an attempt to calm him down, palmed a penny from his pocket and pretended to pull it from Sammy's ear. Sammy was delighted. In a flash, he snatched it from his father's hand, swallowed, and then cheerfully demanded, "Do it again, Dad!"

# Confirmed Case Of Measles Prompts Public Alert To Potential Exposures

## Continued from Page 1

3 to 7 days after fever starts, usually beginning behind the ears and on the face and spreading down to the body and then to the arms and legs. The rash appears red and blotchy on lighter skin colours. On darker skin colours, it can appear purple or darker than the skin around it, or it might be hard to see.

Complications of measles can include ear infections, pneumonia, inflammation of the brain, premature delivery, and rarely death. Persons who are pregnant, less than 5 years of age, or have weakened immune systems are at greatest risk.

If symptoms of measles do develop, individuals are advised to stay home and call the measles hotline at 1-844-944-3434 before visiting any healthcare facility or provider, including a family physician clinic or pharmacy.

Measles vaccine is highly effective at preventing infection and complications. In Alberta, measles vaccine is offered, free of charge, through Alberta's publicly funded immunization program. The recommended schedule for measles vaccination is two doses, the first at one year of age and the second at 18 months.

If you think you have been exposed, and you are not protected against measles you may be able to receive immunization to reduce the risk of infection. A dose of vaccine needs to be given within 72 hours of exposure to prevent measles. Babies under 1 year of age, people with severely weakened immune systems, and those who are pregnant may be able to receive immuno-

globulin within 6 days of exposure to prevent disease. Call the measles hotline at 1-844-944-3434 for more information if these situations apply to you or your family.

Albertans uncertain of their immunization history, or their child's immunization history, can check eligibility and/or book an appointment by calling the

measles hotline at 1-844-944-3434.

Individuals who are 14 years of age and older can check their My Health Record.

The measles hotline connects you to a professional who can assist with accessing your immunization records or offer general information; provide advice for those experiencing measles

symptoms and are feeling unwell; and assist with booking measles immunization appointments or locating a public health clinic offering immunization in your area.

## PROPERTY MAINTENANCE HELPS CREATE A CLEANER, SAFER SPRUCE GROVE—LET'S DO IT TOGETHER

Submitted by City of Spruce Grove

Maintaining your property helps keep our community clean and safe, creating a welcoming, attractive place for both residents and visitors to enjoy. Last year the City of Spruce Grove introduced the Community Standards Bylaw, which provides clear guidance on property maintenance

standards such as outdoor property care, yard upkeep, naturalized yards, yard storage and commercial property maintenance.

Maintaining your property comes with plenty of perks—like being a good neighbour, removing obstructions, reducing odours, keeping streets and alleys accessible, and showcasing your well-kept lawn!

Keep your property and

neighbourhood safe and tidy with these tips:

Remove outdoor obstructions from your property such as appliances and broken/unused vehicles, repair or replace damaged fences, and clear overgrown vegetation from sidewalks and alleys.

Keep your yard neat by mowing grass regularly, managing weeds, and keeping compost stored neatly.

Support your naturalized yard by planting a variety of species, inspecting for noxious weeds, and managing overgrown vegetation.

Reduce unwanted odours by securely storing excess waste and garbage and keeping empty bottles in sealed containers indoors.

Submitted by Stony Plain

The Town of Stony Plain has been nationally recognized by the Canadian Association of Municipal Administrators (CAMA) for its Creating an Inspiring Workplace Through Leadership Excellence Program. Stony Plain was presented with the 2025 CAMA Municipal Inspiring Workplace Award, in the Under 20,000 Population Category, during an awards ceremony at CAMA's national conference in Mont Tremblant, Quebec, on Wednesday, May 28.

"CAMA is pleased to recognize Stony Plain for the municipal excellence demonstrated by their leadership excellence program," says Tony Kulbisky, CAMA President, CAMA Representative for Alberta, and CAO for Westlock County. "The innovative in-house development program provides a structured process designed to help employees lead themselves, others, and the organization."

Creating an inspiring and supportive workplace is a key priority for the Town of Stony Plain. The Town's Senior Leadership Team has developed an in-house leadership program. It supports progressive human resources practices and policies, that promote diversity, equity and inclusion, encourages work-life balance and fosters a culture of training and professional development.

The Leadership Development (LEAD) Program provides participants the opportunity to develop a greater understanding of themselves as a leader and a learner. Developed in 2019, the program offers three streams of learning based on The Leadership Competency Model. This includes:

Leading Self - Foundational Leadership (Aspiring Leader)

Leading Others - Enhanced Leadership (Manager Level)

Leading the Organization - Strategic Leadership (Senior Leadership Level)

Leadership concepts are not reserved solely for the senior leadership team or management roles. The program emphasizes that leadership begins from within and cultivates a leadership mindset among staff at all levels. Through LEAD, employees are empowered to take initiative, contribute meaningfully, and grow professionally.

"The LEAD program promotes good governance by equipping participants with the skills, knowledge, and ethical framework necessary to make informed, transparent, and accountable decisions," says Stony Plain CAO Tom Goulden. "Good governance is rooted in principles like fairness, inclusivity, integrity, and responsiveness, all of which are cultivated throughout the LEAD program."

"This national recognition speaks to Tom's commitment to building a strong, people-focused organization," says Stony Plain Mayor William Choy. "Through his leadership, the

LEAD program has empowered staff across all levels to grow, lead, and contribute to a workplace culture rooted in collaboration, learning, and service."

The Municipal Inspiring Workplace Award recognizes a CAMA member who is a forward thinking and people first employer. The municipality will have demonstrated leadership in creating an inspiring and positive work environment for its employees that enhances employee engagement, job satisfaction, and overall well-being. Recipients will embrace progressive human resources practices that help build a resilient organization and demonstrate strong leadership practices that guide the municipality.

## BOARD BRIEF

Submitted by GYPSD

The Board of Trustees thoroughly enjoyed the annual presentations from the Superintendent Youth Council at this month's Public Board Meeting. Twenty-seven students from each of the five high schools - Grand Trunk in Evansburg; Parkland Composite in Edson; Harry Collinge in Hinton; Grande Cache Community, and Jasper Junior/Senior High - shared their thoughts with the Board on an unique project or initiative they envisioned for their school.

Projects ranged from a more robust breakfast program, student exchanges across the Division, facility modernization, and feedback on the current restrictions on personal mobile devices at school. Assistant Superintendent Scobie also applauded the students' thoughtful and detailed presentations, and provided some insight on each project's goals to help them move them forward.

Trustees approved Year Two (2) of three (3) of the Division's Education Plan which continues to support:

Goal 1: Every GYPSD student will graduate with the knowledge and skills to pursue their goals beyond high school.

Goal 2: First Nations, Métis, and Inuit students are successful.

Goal 3: Increase parental satisfaction in Education Quality and Engaged Student Learning in GYPSD by improving parental engagement.

Specific strategies and desired outcomes are articulated in the Education Plan which informs stakeholders on a multi-year view as to how GYPSD will meet the needs of students and improve results in specific areas. Families, staff, and high school students are also surveyed annually to collect insight on how these strategies are moving the division forward in meeting these goals.

593 respondents, up four (4) percent from last year, provided feedback which was also shared with trustees.

Meghan Auriat, Assistant Superintendent, provided the annual Human Resources (HR) Planning and Recruitment Report which included an update on the current staffing activities in preparation for end of year and the upcoming school year. Each year staffing changes reflect retirements, resignations, secondments, requests for transfers to another school, requests for leaves of absence, and job-sharing requests.

In addition, the HR team actively recruits all year including attendance at career fairs through local venues, universities and Apply to Education.

A new policy, Policy 22 -

School Attendance Areas, was adopted to align with the current procedures in AP 305 - School Attendance Areas. As per section 10(1) of the Education Act, the Board establishes school attendance areas and designates resident students of the Board to a particular school. School attendance areas manage space and resources across the division in order to provide quality learning opportunities for all students. School attendance areas are determined by the Board and are designed to ensure a fair and equitable distribution of students across schools, while also allowing for some flexibility in attendance choices. While students are generally expected to attend the designated school within their attendance area, parents may request their child attend a different school within the division, subject to space availability and school-specific criteria.

The Board was also pleased to approve a letter of support for the redevelopment efforts of the Jasper community in seeking funding grants for their elementary school's playground congratulatory letters to their local MPs elected in the recent federal election the purchase of four (4) school buses as part of the evergreening of their fleet plan, and two (2) advocacy letters to be forwarded

to the Minister of Education and Childcare requesting provincial funding to support compensation for the recently ratified agreement with CUPE Local #1357 as a follow-up letter to the new Federal Minister of Environment and Climate Change requesting compensation for the \$500,000 insurance deductible in relation to the 2024 Jasper wildfires.

Part of a healthy system includes sound financial management.

Assistant Superintendent Scobie outlined the highlights and assumptions for the 2025/26 Budget Submission Report which will be forwarded to Alberta Education in June. The Board's new Finance Committee also shared some recommended changes for upcoming policy discussions.

A new 2025 Candidate Election Handbook was introduced to the Board. It has been added to the Division's website along with other resources to assist potential candidates in learning about the important role of a public-school trustee.

The current board also created a video on their roles and responsibilities which has also been shared on the site.

## SUDOKU

*of the week*

**Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box.

**ANSWER:**  
Last Weeks  
You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
